

Plan Committee For High School Addition Sought

19 Organizations Asked to Counsel Board on New Building Program

Nearly a score of organizations in the Antioch Township High school district have been invited to appoint two delegates as members of a planning committee with which the high school board will confer on the proposed addition to the present school building.

The first meeting will be held at 8 p. m. Wednesday, Apr. 12, at the high school when the board will discuss with them the building needs and plans which they may criticize and evaluate.

"We have considered these groups a cross section of the community the school serves and hope that they can guide us to the extent that whatever decision is made the community can assume responsibility for," said Principal T. R. Birkhead. Principal Birkhead said that this meeting is to be no "love feast" but that the delegates can have their say and those who oppose any or all of the plans will be heard as readily as those who favor the plans entirely.

He said the board will present the facts and the community can make up its mind and its own decision in the matter.

The delegates are expected to report to the various organizations for general discussion and then a public meeting will be called for a final decision.

"We want to do what the people want us to do in this situation," said Principal Birkhead.

A meeting of the school board with Thomas Higgins, architect, and Edward C. Jacobs, attorney, was held last evening in discussing procedures in the building program.

Groups who have been contacted to send representatives are:

American Legion auxiliary, American Legion, Antioch Home Bureau, Antioch Township High school social organization, Antioch Woman's club, Business and Professional Woman's club, Channel Lake Community club, faculty members, Grass Lake Community club, Hickory Corner Mothers' club, Lake Villa Men's club, Lake Region Home Bureau, Lion's club of Antioch, Millburn Community club, Antioch village president, Lake Villa Village president, student body, Veterans of Foreign Wars and Veterans of Foreign Wars Auxiliary.

W. J. Murphy, Petite Lake, Is "Write-in" Candidate for Cong.

W. J. Murphy, well-known in Antioch as "Bill," this week announced his candidacy for nomination as Representative in Congress, Thirteenth District. Murphy has been a resident of Antioch Township for the past year, having made his home at Round Lake since leaving Antioch some years ago. "Bill" operates a real estate business in Round Lake.

This is the first time within our memory that a resident of Antioch has been a candidate for an important office of this kind. An advertising message appears on another page of this issue.

Murphy has been endorsed by the Real Estate Board as "the man for the job." He is well qualified and a vigorous fighter for the Republican cause. In endorsing Murphy for the job, the Real Estate Board broke a precedent, but stated that the step was taken in the interests of the welfare of the people, believing that Murphy would give the citizens of the district the vigorous representation needed for the office.

Murphy has in motion a strong campaign for the write-in, and bases his appeal for votes on the fact that unless a write-in is nominated at the primary, the selection of a representative will be made by political forces, rather than the voters.

Return to Village Tasks

With much of their train already gone, Trustee Arthur Rosenfeldt and Clerk L. D. Powles were back in their seats at the village board meeting Tuesday night. They returned from Florida a week ago Sunday.

Easter Parades

Township Officials Add \$7,000 to Year's Budget For Poor Relief, Library

Refuse Twp. Wide Road Load Limit of 10,000 Pound Per Axle

The town meeting at the Legion home Tuesday afternoon resulted in an increase in the budget for the coming fiscal year to take care of poor relief and the moving of the library to the former William Schroeder property on Main st., recently given to the township.

The meeting had its largest attendance in years and much interest was evidenced.

The general town fund was retained at \$5,000 although it will be operated on a close margin.

On a basis of an increased poor relief cost this year the electors upped the budget \$5,000.

In round figures, the treasury had \$7,500 for this expenditure last year and received \$1,000 in taxes, a total of \$8,500 from which approximately \$8,000 was spent, leaving but \$500 in the treasury. The expenditure during the past year for relief included \$5,100 for hospitalization alone, according to Lewellyn R. VanPatten, clerk.

The library fund was increased from \$5,500 to \$7,500 to take care of moving expenses and operating costs. A sum of \$6,900 was asked, but the board decided that heating and maintenance might call for a greater expenditure and added \$600.

Antioch township officials have a reputation as the most conservative group in Lake county according to the Lake County Civic league and the increase is deemed fully justified.

The county suggested that truck load limits on the township's highways be set at 10,000 pounds per axle or 20,000 a truck, but the electors thought that in view of the fact that the township has so many good roads which can be used to an advantage in business they could not go along fully on the idea.

Road Supervisor Robert Webb was instructed, therefore, to post such roads with the 20,000 pound limit signs as are not conducive to heavy hauling, and to ignore the idea on the well-paved roads.

Edward Jacobs presided at the meeting as moderator.

Boy Scouts to Have Paper Drive Monday, Start New Classes in Handicraft Arts

A paper drive for Monday along with other events in April were planned by Scoutmaster Rick Eckert and his junior and senior scout leaders last week.

Twenty boys are now enrolled in the shop class and Ralph Tutein, instructor, and assistant scout master is planning to start weaving, carving and leathercraft classes.

An appeal is being made by the troop for a donation of hand tools. Even the smallest article will be appreciated, Eckert said.

The troop is appreciative of the table shuffleboard set donated for use in the recreation room.

Eighth Grade Examinations

Pupils in the eighth grade of the Antioch public school and all other feeder schools of Antioch Township High school yesterday took examinations for entrance and placement at the high school building.

Write-in Candidates Attend Rally of Young Republican Club Here

Meeting at Scout Home Tues. Well Attended with Much Enthusiasm

A crowd of approximately 125 persons attended the rally of the Young Republican club at the Scout Home Tuesday evening.

County candidates for office were all present and write-in candidates W. J. Murphy of Antioch and Mayor Robert E. Coulson of Waukegan spoke on behalf of their candidacy for representatives to congress. Both Murphy and Coulson are seeking the mantle of the late Ralph Church, and are urging a write-in so that it will be unnecessary to make an appointment.

Ray Fredrickson, president of the Lake County Young Republican club presided.

He called on all of the candidates for talks or recognition in some manner.

The meeting was an enthusiastic one and gave evidence of the fact that Republicanism in the Antioch area is as lively as ever.

Cancer Fund Drive Now Under Way in Antioch; Receptacles in Stores

Lake county's 1950 cancer fund drive was in full swing today with 18 communities taking part in it. Quota for the county is \$26,000.

Mrs. Winsor W. Warriner, Winsor Dr., a member of the Antioch Woman's club and a member of the executive committee of the Lake county chapter of the cancer society, is chairman for Antioch. Her committee consists of Mrs. Walter French, Mrs. Barbara Holbek, Mrs. Alvin Keulman, Mrs. Fred Peterson, Mrs. George Peterson and Mrs. Hans von Holwede. Their quota is \$250. Last year \$281.56 was raised.

Chairman for Lake Villa is Mrs. Martha Madsen. That village also has a quota of \$250. It raised \$282.29 last year.

Local postoffice officials are co-operating with the cancer crusade by handling mail addressed with the single word "Cancer." Chairman Warriner explained that all letters addressed in this way are routed to the nearest American Cancer Society office.

No Sessions of Public Schools Friday, Monday

There will be no sessions of the public schools in Antioch either on Good Friday or the Monday following Easter.

T. R. Birkhead, principal of the high school said that the two days are omitted in view of the fact that there is no regular Easter vacation period. Monday is a vacation day so that those going away for Easter may have traveling time to get back.

The same situation is true for the grade school, according to Principal Richard Whitacre.

St. Peter's parochial school will not be in session on Good Friday.

Village Board to Hire Lighting Engineers for Main Street Improvement

A step was taken toward installing a mercury light system in the business section of the village Tuesday evening by Antioch trustees when they decided to employ Michel and Associates, Chicago, as engineers in planning the improvement.

Acting on the basis of a letter from the Chicago consultant that its 5 per cent fee will not be assessed until the project is contracted for, the board followed a suggestion made by R. G. (Bud) Holtz representing the Lions club, who said that a move of this sort would justify the members of his organization in raising money to help pay for the improvement.

Mayor James McMillen admitted as did other members of the board, that he hadn't the slightest idea where the village could get the money to pay is share of the expense.

Holtz admitted that the condition of the streets is bad, a No. 1 must for the village expenditures, but said that the village would be justified in attempting to put in new lights to bring the business district up to date.

He said that the telephone company is planning to remove its wires and poles this summer and place the wires in conduits, making necessary in some instances for the village to remove its lights from the poles.

George Joedicke, representing the Public Service Co., of Illinois, said that it owned its poles in Antioch and the village can use them for light standards as long as it desires.

T.B. Mobile X-Ray Unit to Visit Antioch Tuesday, Wednesday

In connection with the forthcoming community chest x-ray survey to be held in Antioch on April 12, Dr. Theo. S. Proxmire, president of the Lake County Tuberculosis association, today stressed five points.

First, it's free. Your purchase of Christmas Seals pays for this service.

Second, the results are confidential. Only you and your family physician know of any findings.

Third, it's painless. Having an x-ray picture taken is just like having a picture taken with a camera.

Fourth, there is no undressing required. Men will be asked to remove their coats and empty their shirt pockets. Women will be asked to remove jewelry and ornaments over the lung area. Buttons down the center of a shirt or dress are not in the way.

Fifth, it takes less than a minute to take an x-ray picture and it is time well spent.

The unit will spend 2 days in Antioch. On April 11 it will be located at Antioch Township High School to x-ray the children who reacted positively to the tuberculosis test from the high school, Antioch Grade, Channel Lake, Grass Lake, Hickory Corners, Emmons, Millburn, and Oakland Schools.

The employees of the Regal China Co., will be x-rayed on the morning of the 12th and the unit will move to its downtown location about noon, where it will remain until 9 p. m.

Typists from the Antioch Women's club will be on hand to fill out the necessary cards before entering the unit.

Mayor McMillen Still Plans Park Cleanup

Mayor McMillen says he is still planning a cleanup day at the new village park east of the Scout Home given by William Schroeder.

Asked by one of the trustees what is to be done in cleaning up the place, he said that just as soon as weather permits he will issue a call asking the townspeople to set aside a day in cleaning the place.

The mayor proposed a picnic at noon as a social event.

He did not say who would clean up after the picnickers. Clerk L. D. Powles reminded the board that there is still a village law calling for one day's service from the head of each home in doing village work.

Primary Election Tuesday Will End Slow Campaign

Girl Scouts to Sponsor Benefit Dance on May 6

Antioch Girl Scouts will sponsor a dance for the benefit of the Scout Home.

The dance will be held at 8 p. m. Saturday, May 6, at the Antioch Township High school gymnasium with the Bessie Barnes orchestra furnishing the music.

There will be square dancing with Earl Horton serving as caller and modern dancing as well.

Refreshments will be sold at booths during the evening.

High School Will Open Track Season Against Grant Here Wednesday

Antioch Township High school's track and field season will open next Wednesday in a dual meet with Grant Township High school here.

With only two practice days so far the two teams will be far from ready for the meet. Cold and snow have kept the thinly-clad indoors and although 55 are trying out this year, Coach Maurice Kruzan has no knowledge of the ability of the boys except the holdovers of last year.

Robert Wilton high jumper and high hurdler is back without much opposition for first place and the same is true for George Nelson in the 440. Others from last year who are back are Bernard Gutowski, a miler; Fred Wolf and James Kennedy in the discus; Gene Wieszorek, broad jumper and dashman; and Dick Radtke, a low-hurdler.

Underclassmen who are expected to make a good showing are Robert Odden, a mile runner; Steve Young pole vaulter; Harry Larsen, sophomore shot-putter and 220 dash man; Gene Beahke, dash man; and Ronald Nickerson, sophomore pole vaulter.

The freshmen and sophomores will be given plenty of opportunity on the varsity team this year. There is no special coach for underclass track and baseball and there will be few contests in those sports for the freshmen and sophomores. Coach Kruzan believes that under these conditions the boys should be permitted to step up in faster company if they can make it.

After Wednesday's meet, there will be no more track for two weeks. By that time the ability of the contestants should be known.

Coach Kruzan said that he looked for an average season in winnings. Just now he is watching weather reports in the hope that spring will be an actuality not a record on the calendar.

Mrs. W. C. Thieman Dies of Heart Attack; Funeral Held Monday

Mrs. Jane Thieman, 58, of 1034 Victoria st., died at 11:15 a. m. Friday, March 31 from a heart attack. She had been in poor health for a number of weeks and was hospitalized recently.

Born in Darlington, Wis., Feb. 28, 1892, Mrs. Thieman lived there and in Madison, Wis., before coming to Antioch 26 years ago.

Her husband, William C. Thieman, has been employed by the village of Antioch for 11 years, formerly serving as chief of police and now as street and water commissioner.

Surviving are the husband, a son, Clayton O'Haver; a sister, Mrs. Margaret Schanen, Grayslake, and two grandchildren.

The funeral service was held at 9 a. m. Monday at St. Peter's church with interment at Mt. Carmel cemetery. Rosary was said 8 p. m. Saturday.

Daylight Saving Ahead

Daylight savings time is nearer than you think.

The village board, determined not to overlook the change as it did in its April meeting last year, provided for the one-hour advance in time for the last Sunday in April and the return to standard time the last Sunday in September. The one hour extra sleep will last only three more weeks.

Death of Church Causes Frantic Late Scramble

Voters will go to the polls next Tuesday, April 11, to vote in the primary elections, after a very lethargic campaign, which gained momentum only during the last few days. Contributing a frantic note was the untimely death of Congressman Ralph E. Church, who was the only candidate on the Republican ticket for Representative in Congress. A good many "write-in" candidates are campaigning for the nomination, and this last minute surge has contributed to interest in the campaign.

As matters now stand three major candidates are seeking the "write-in" nomination. They are W. J. Murphy, Round Lake, realtor, who makes his home in Antioch. Mayor Robert E. Coulson, of Waukegan, is a second candidate, and Wm. M. McGovern of Evanston. There are others who are seeking the nod but these three seem to have the edge.

In the event that the name Ralph E. Church receives the plurality of votes, a candidate will be chosen by the Republican committee, and all three candidates are basing the appeal for votes on this issue—that rather than leave the choice to politicians. Richard J. Lyons, Libertyville, has released a news story this week to the effect that it will be better to let the machinery already set up take care of this matter than to try to nominate a "write-in" candidate. This would seem to indicate that Lyons has already made a "deal" with the committee for appointment in case the Church name is victorious. Political observers have said that a vote for Church is in reality a vote for Lyons.

If voters wish to cast a ballot for any of the write-in candidates, it will be necessary to write in the favored name below the Ralph E. Church name, place a box in front of the name written, and place a cross within the box.

Good Race for State Representative

Second in interest in a race for any of the offices to be nominated is that for State Representative with six Republicans seeking the

Supervisor's Committee To Discuss Zoning at Channel Lake Meeting

Will Be Guests of Chain O' Lakes Council Friday, Public Invited

The supervisors' committee which has been working on the new county zoning ordinance for more than a year will be guests of the Chain O' Lakes Region council at a public meeting 8:15 p. m. tomorrow (Friday) at the Channel Lake school house.

An open forum on the tentative ordinance as explained by the committee will be conducted, and answers to questions on the new code will be given.

Members of the committee are William Rosing, Antioch, chairman; Harrie B. Muir, Shields township, co-chairman; William A. Tennerman, West Deerfield; Minnie C. Balke, Deerfield; and Frank B. Peers, Deerfield.

Bernard Juron, legal adviser to the committee and other advisers may be present.

Dr. Hugh Vincent, secretary, said the council is inviting the public and is hoping for a large attendance and a good discussion.

Attorney Juron gave a historical background for the new code at the last meeting of the council on March 3.

The committee expects to make its report to the county supervisors soon.

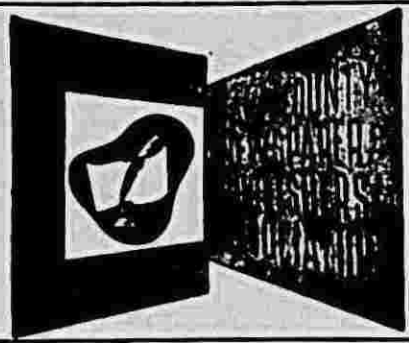

Asks Job As Patrolman

Aware that the village has a vacancy in its police department Frank Woolsey of Petite lake made application to the village board Tuesday evening for the job. He had in mind patrol duty with a car, but Mayor James McMillen said that what is needed is a foot patrolman with an ability to do manual labor for the village at times.

Hothouse Security Fatal

In a recent address John Foster Dulles said, "There is a primitive law of the survival of the fittest and fitness is found, most of all, in adaptability to ever-changing conditions. Those who live under artificial, hothouse conditions do not last for long. A people become insecure when they demand and get personal security and material welfare that depend upon highly artificial conditions. No armament can protect against that type of insecurity."

"A people survive in freedom if their members are courageous, resourceful and self-reliant, if each carries a share of responsibility for common problems, if they are individually and collectively adaptable to changing conditions, if they have faith and vision and put spiritual values ahead of material values and if they keep control of their own destiny."

"I pray that we shall continue to be that kind of a people."

We shall not continue to be that kind of a people if we turn to government to protect us against every exigency of individual life. The late Justice Brandeis said, "Experience should teach us to be most on our guard to protect liberty when the government's purposes are beneficent." There could be no better thought for these times.

What Americans Want

Adolph A. Berle, former Assistant Secretary of State, recently testified before a Congressional subcommittee which was looking into the growth of big business and the possibilities of monopoly. Mr. Berle said, "Americans seem to want an almost unlimited amount of goods of standard quality, at the lowest obtainable price, capable of being bought anywhere, and everywhere, at any time."

"These desires mean big business in some form or other. . . . If an American wants chain-store service—big business as against the old corner grocery store—then he wants a chain store too." Mr. Berle then went on to point out why it is impracticable to put an arbitrary limit on the size of business.

It will be a grievous mistake if we ever come to believe that mere size, per se, is sure evidence of monopoly. That seems to be the idea back of the government's present anti-trust suit against a big chain store system*. But, as hundreds of newspapers have pointed out in their editorial columns, this chain has no monopoly and neither has any other retail organization, chain or independent. As a matter of fact, the nearest thing to a real retail monopoly was the old crossroads emporium of the horse-and-buggy days. You bought from it and paid its price or went without. Now every retailer, regardless of how big he must be, is in direct competition with other stores, every one of which is using every customer inducement it can devise.

Few businesses were big when they began—they started out in a small way and size was the reward for pleasing the customers. There are small, virtually unknown businesses today which will be big tomorrow—unless destructive governmental laws and policies stop them. There is plenty of room in the country for every kind and size of business, and that's one reason for our unsurpassed living standards.

*Great Atlantic & Pacific Tea Co.

Winter Plays No Favorites

A number of residents of the Pacific Northwest must, by now, be somewhat disillusioned with the idea that the road to better and cheaper electric service lies through socialization.

Some years ago, People's Utility Districts, known as PUDs, were formed in various parts of the area. The PUDs took over electric generation and distribution facilities which had formerly been operated by private utilities and went into the power business.

This winter, the Pacific Northwest was hit with unusually severe storms. Heavy damage was done to power lines and other installations. Two of the leading PUDs found that they didn't have enough spare money to pay the repair bill. So they have substantially increased the electric rates to consumers. It is a noteworthy fact that neither of these PUDs made rate reductions when they took over the private companies.

The private utilities in the region also suffered heavy damage. But, as always, they have gone ahead and made the necessary repairs. They have not asked for rate increases—and, if they did, the regulatory commissions would undoubtedly look on the idea with cold eyes. But PUDs are immune from such nuisances as public relations—just as they are immune from most taxes. So their customers are going to pay more for power whether they like it or not—and for standards of service which, generally, are much below those of the private utilities.

The Vancouver, Washington, Columbian observed that these rate increases are "proving embarrassing to the extreme advocates of socialism who shout from the house tops that public ownership is the cure for all the world's ills." This is a fine example of the fact that socialism, among its other evils, is basically inefficient.

years ago, Walter lives in Seattle, Wash., and Harold lives in Portland. Mrs. Marie Hamlin entertained the ladies of the Sewing club at a luncheon at her home Thursday afternoon. She will open her home on Wednesday afternoon, April 12, for the monthly card party sponsored by the Royal Neighbor Officers club. Mrs. Helen Fish and Mrs. Matilda Bartlett are co-hostesses.

Mrs. Pauline Schneider and son, Mrs. Anna Almquist, Aileen and Paul Almquist, of Chippewa Falls, Wis., are spending the week with their mother, Mrs. Anna Nader and other relatives.

The Royal Neighbors will hold their next meeting on Tuesday evening, April 11, with Mrs. Paul Avery, Sr., at her home.

Miss Diane Sheehan, of Antioch, who recently underwent appendectomy, spent a few days last week with her grandparents, Mr. and Mrs. Paul Avery, Sr.

Mr. and Mrs. Ray Burnett, of Oak Knoll Drive are receiving congratulations on the birth of a daughter, at the Condell hospital at Libertyville on Sunday, March 26.

Mr. and Mrs. Ed Tiede have returned from a pleasant vacation trip to California. On the way they stopped off at Houston, Texas to visit their daughters, Marilyn and Barbara, who are employed there.

U.S. Wood Consumption

The wood used in the United States each year would be enough to build a walk 20 feet wide, two feet thick, and nearly 240,000 miles long.

Where Jute Is Grown

Most of the world's supply of jute is grown in India's hot Ganges-Brahmaputra river delta, and is woven into burlap and sacking cloth in the near-by mills of Calcutta.

California Tobacco

Tobacco is now being grown in California which is not fit for smoking, but is used only for the nicotine content.

THIS IS THE MAN

LAKE VILLA

The Community Church was filled for the Palm Sunday services and the choir sang "The Palms". Four young people, Donna Reidel, Lillian McNeill, Paul Williamson, Philip Wagner were received into the church membership. Diane Lynn, daughter of Mr. and Mrs. Marvin Walker, William Thomas and Penny Jo, children of Mr. and Mrs. Joe Nader, Jr. Linda Ann, daughter of Mr. and Mrs. Ralph Nader, Richard Armond Spriggs and Brian Robert Ladewig, son of Mr. and Mrs. Ellsworth Ladewig were baptized.

The Sandor Kish trio, of Waukegan were at the church Wednesday evening to present a musical program and colored slides from Anna Elsa Wood's set of paintings on the "Life of Christ" were shown. On Thursday evening a communion service was held from 7:15 to 8 o'clock. Mrs. Harrison gave a chalk rendition with song and scripture of the beautiful "Holy City" with meditation at the opening of the service. On Friday afternoon from 2 to 3 o'clock a service of worship and prayer was held and on Easter Sunday special services will be held at 11 a. m., to which all are welcome.

Mrs. Anna Gunnarson has just returned from St. Louis having spent a day with Helen Weber, who is still in De Paul hospital. She is getting along nicely but will still be there for some time. It pleased her so much to see someone from home. Your many cards and letters were much appreciated. Up to the time Mrs. Gunnarson was there, they numbered over 600.

An Easter egg party will be held for all the children 3-11 inclusive next Sunday afternoon. Each child should arrive at the church at 2:30 with 3 hard boiled decorated eggs. If weather permits an egg hunt will be held, and if not, it will be a party. Every child in town is invited.

Mrs. Martha Madsen, Cedar Ave., is chairman of the Cancer drive in the Lake Villa area. She has been secretary of the O. E. S. for 11 years, a member of the P. T. A. and W. S. C. S. Besides aiding in the cancer work, she has been interested in Red Cross activities, having been a leader in previous Red Cross drives. She will name her committee members later. Quota for Lake Villa is \$250.00. A mail and personal solicitation is planned.

Mrs. Ethel Wood was called to Evanston last week by the death of her brother-in-law and spent a few days there.

The voters of Lake Villa Consolidated school district will hold election at the grade school gym on April 8th to elect two new members to the school board for a three year term. Names of candidate are John Brandt, Ernest Nielson and Harry Pavel.

The seventh and eighth grades of

Lake Villa Consolidated school will present their play "A Case of Springtime" at the school gym on Friday and Saturday evenings, April 14 and 15, and hope to see you there.

On Wednesday last week the pupils of the two upper grades enjoyed a trip by school bus to Chicago where they visited the Museum of Science and Industry and had a most enjoyable trip.

The pinocle club met Tuesday with Mrs. Ethel Wood at Allendale for pot luck dinner at 12:30 followed by games of pinocle during the afternoon.

Mr. and Mrs. Henry Nader visited friends near Wadsworth on Sunday. Wm. Marks, who was a patient at Victory Memorial hospital for six weeks, is convalescing nicely at his home.

Mrs. Lulu Nelson, who spent the past two months with her sister in Nashville, Ill., returned last week and is with her daughter, Mrs. Carl Ekdahl at her home.

Some of the older residents will be interested to hear of the death of P. S. Daniels, a former resident here, passed away at his home in Portland, Ore., on March 22. Mr. and Mrs. Daniels, their sons, Roscoe, Walter and Harold lived here for a number of years. Mrs. Daniels and Roscoe passed away some

SHORT STORY

Garden Sequence

By Richard Hill Wilkinson

BRYANT DREAMED a dream. He was in a garden. A beautiful girl sat on a white marble bench, and smiled at him across a pool filled with goldfish and pond lilies. Bright sunshine filtered down through shade trees and reflected the gold in the girl's hair.

3-Minute Fiction

Bryant knew that, according to all good dreams, he was supposed to do something—possibly to walk around the pool and bow gallantly before the girl.

He began to wonder if he didn't look somewhat like an idiot standing there.

It was then that he heard footsteps on the flagstone path that connected the garden with the wide, screened-in porch of the house. He looked up to find Laura, his sister, coming into the garden. He was glad that Laura had come. For Laura knew all about dreams and could tell him what to do.

"Bryant!" Laura exclaimed, stopping on the pool's edge, and looking from him to the girl, "whatever in the world are you standing here for? Why, you're positively rude. Doris must think my brother is stupid!"

Oh, yes, that was it. It was all working out fine now. Laura had asked her college roommate, Doris La Plante, down for the week-end. Of course, that was she. How stupid of him.

So Bryant walked around the pool and was introduced. He looked deep into the twin black pools that were Doris' eyes, and apologized. His voice sounded odd, but that, of course, was because he was thinking that here was the girl he had been waiting for.

Then he almost groaned aloud. Doris had looked up and said it was quite all right and she really should have introduced herself, but he added so much to the scene, standing over there so straight and silent. It was the sound of her voice that made Bryant groan; for he remembered that it was all a dream and that Doris would soon be gone.

Then suddenly it was night, and they were once more in the garden. There was a full moon and a gentle breeze and music drifting down on the still air from somewhere back of the marble bench.

A week, two weeks, had gone by—Bryant wasn't sure which—since the first meeting in the garden. He had a dim recollection that they were glorious weeks of riding and golfing and swimming and dancing—all with Doris.

IT WAS ONLY OCCASIONALLY now that Bryant remembered it was all a dream. The dread of waking up didn't affect him quite so poignantly. That is to say, it didn't affect him until this night when they were alone in the garden. Then he was seized with a sudden panicky sensation.

And so quite abruptly Bryant turned and said without preliminaries:

Bryant slowly put his arm about her slim shoulders.

aries: "Doris, darling, I love you. I know this is all a dream, therefore I'm telling you now before I wake up. I've waited all my life for such a girl as you. It seems cruel that you'd come to me only in a dream."

And Doris turned up her face to his, with the moon making shadows of her eyes, and said: "I love you, too, Bryant, and I'm glad you waited for me. I hardly know what I would have done had I discovered you belonged to some one else."

Bryant thought this over and decided that the dream had turned out just the way he would have ordered. He'd better wake himself up, he thought, before he did something to spoil it. But before he could pinch himself, which was the conventional way of waking oneself from a dream, Doris laid her head on his shoulder.

Bryant looked down at the golden head. "Doris," he said brokenly, "this is all a dream, and in a minute you'll be gone and I'll find myself alone. You're not real."

But Doris laughed softly, and snuggled closer. Bryant slowly put his arm about her slim shoulders. She was there, close against him. Her lips were upturned, and as Bryant bent to kiss them, he knew that when again he opened his eyes, she'd still be there—and would always be there.

Uses for Apples

No other fruit equals the apple in the variety of its use. Apples are a welcome addition to any salad, may be dried alone or with onions as a vegetable, used as a meat accompaniment, preserved in butter, chutneys, or cider, and offer almost unlimited possibilities as a desert.

Popular Vegetable

The cowpea is much more popular as a vegetable in the southern United States than elsewhere in the country. The Black-Eye is by far the most important edible variety of cowpea.

Canada's Water Power

Canada now has about one horsepower of hydro-electric power per capita, or about five times the proportion in the United States, and in addition has a vast potential yet unharnessed.

Beef Calves

The weight of a beef calf at weaning time is directly related to the milk production of its mother. Therefore, a cow whose calf is unsatisfactory at weaning should be culled from the herd.

More Coke

Western industry has been hampered by the scarcity of low-cost coal which would be made into coke. Utah has abundant coal, but it has a high percentage of waxes and oils which hamper the coking process. It has been found that soaking the coal in ethylene dichloride will remove these substances.

Afghanistan Biscuits

"Pass the biscuits, Mirandy"—but not the kind they make in Afghanistan. The staff of life produced there is so tough and leathery that it is used as a plate for other foods, and pieces of it are folded to form spoons for eating soups.

In Gay Nineties

In 1890 the gas stove was hailed in newspapers around the country as "an inestimable boon to housewives" and "the cooking apparatus of the future." Top burner heats were easily-controlled and accurate. And shortly after oven thermostats were first installed on gas ranges in 1915, food columns began to discuss methods of cooking by time and temperature.

Creamed Celery

Creamed celery served in an onion cup made by chopping out the center portion of large, milk boiled onions is tasty and good. It lacks color, however, so should be sprinkled with paprika, chopped parsley, or sliced hard-cooked egg yolk. Save the scooped-out centers of the onions for adding to soup or for creaming.

Mink, Odoriferous

One has to be very careful when associating with outraged minks. Although these little animals are responsible for some of the loveliest fur coats, they are quite odoriferous when aggravated and, to many persons, the scent is more nauseating than that of the skunk.

Cooking Steaks

For a full-flavored, attractively-browned steak, cook it at a constant and moderately-low temperature—about 350 degrees.

First Trees

The first trees, as we know them, with more or less solid wood and needle-like leaves, appeared in the Permian age, 235 million years ago.

SOCIETY EVENTS

B. & P.W. Club Has Election and Hears Musical Program

Miss Iris McKinney, high school teacher, will head the Business and Professional Women's club as its new president as the result of an election of officers Monday evening at the Scout Home.

Mrs. A. G. Simon conducted the meeting in which Miss McKinney's staff of executives were chosen as follows:

Mrs. Marian Rigby, vice president; Mrs. A. G. Simon, secretary; Mrs. Joe Horton, treasurer.

Mrs. E. W. Edwards was chosen representative of the club, to serve on the board of the Scout Home Foundation.

Mrs. Elsie Hays played for the group singing; Mrs. Betty Myers gave several readings; and Mrs. Kaufman played several piano selections.

Mrs. Donald Gibbs and her committee served refreshments.

Legion Auxiliary Hears Report on Pan-American Conference in Chicago

Mrs. M. L. Goldy reported on the Pan-American conference held in Chicago to Antioch Unit 748, American Legion Auxiliary during the recent meeting.

Dr. Harry J. Fuller, of the University of Illinois, spoke and showed slides on "Rubber Hunting in South America". Dr. Fuller was employed by the United States government during the war to exploit the rubber and send it to this country in a partially refined form for war materials such as rubber tires.

The natural rubber was found to be superior to synthetic the main source of rubber for the past twenty years had been from Malaya and the East Indies but this source was cut off by Japan and cultivation of the dormant South American supplies were vital to the war effort.

Dr. Fuller drew some conclusions about Americans living in South America, either as a government or private business representative. He recommended to adapt to their ways of life, cultivation and have a knowledge of their language.

The American Legion Auxiliary is studying Ecuador this year as their Pan-American project. Mrs. Goldy gave a brief talk on the geographical and culture of the country. The location makes exporting the major source of income.

United States is the primary buyer of their products which are not produced here or can be purchased cheaper from Ecuador, such as cocoa, nuts, Panama hats, cotton goods, coffee and rum.

The pattern of the country was traced from the Indian domination, though the Spanish control to the present day republic form of government.

Mrs. Burt Anderson attended the Americanism session of the conference. Mrs. Omar J. McMackin, Department Americanism chairman, had charge of the meeting.

Greetings were brought to the group by Mrs. Stanley Brown, department president.

Mrs. McMackin introduced Miss Marily Shanks, governor of 1949 Illini Girls State and Richard Muraski, 1949 Premier Boys State.

Principal speaker at the conference were Miss Edna Lonigan, who spoke on "Communist Fool the Women." Lawrence J. Fenlon, senior vice commander Department of Illinois, American Legion, he spoke on "Our Nation's Security" and Mrs. B. W. Ward, National vice president of the Central Division.

A "Pageant of Nations" was presented by the Fifth District junior members.

Mrs. Leo J. Kelly was general chairman of the conference.

At the next meeting of Antioch Unit will be held April 14. Mrs. W. W. Warriner will speak and show a film on cancer.

A. T. H. S. STUDENT COUNCIL TO SPONSOR PICTURE SHOW

Members of the Antioch Township High school student council are sponsoring a picture show "Quick Sand" starring "Mickey Rooney" at the Lakes Theatre April 12 and 13. The proceeds to be used to finance 8th Grade Day, which will be held at the high school April 19th to help eighth graders become acquainted with the work and surroundings of the school.

MRS. LUX HOSTESS AT DINNER PARTY

Mrs. Fern Lux entertained at a dinner party Saturday evening in honor of her nephew, Bobbie Wilton, who celebrated his 16th birthday anniversary that day. The guests were Mr. and Mrs. Robert J. Wilton, Billie Wilton, Mrs. Ada Overton, of Chicago, Mrs. Walter Taylor, of Waukegan and Miss Pearl Lux of Antioch.

WILLING WORKERS CARD PARTY

Members of the Willing Workers club will hold a public card party Friday, April 14, at 8 o'clock at the Trevor Social Center, Trevor, Wis.

Church Notes

THE CHURCH OF ST. IGNATIUS OF ANTIOCH (EPISCOPAL)

Clergy: The Reverend Roberts E. Ehrigott
The Reverend Percival J. Jamieson
Tel. 652-J

Good Friday, April 7, 8 a. m. Altar Service and the Pre-Sanctified Noon to 3:00 p. m. The Three Hour Service; Meditations, Prayers, and Hymns on "The Words from the Cross."

Easter Even, April 8, Lighting of the Paschal Candle, Blessing of the Font, Holy Baptism, 4:00 p. m. Holy Penance 7 to 8.

Easter Day, April 9; 8 a. m. Holy Eucharist (said)

9:30 Holy Eucharist (hymns), Break fast Party for children and parents (no classes)

11:00 Holy Eucharist (choral), with sermon by the Rev. Dr. Jamieson.

Easter Monday and Tuesday: Private Communions upon request.

The climax of Holy Week services at the Church of St. Ignatius of Antioch will be the celebration of the Altar Service and the Pre-Sanctified on Good Friday at 8:00 a. m. At noon and lasting until 3:00 p. m., the Three Hour Service will be held, with Meditations, Prayers, and Hymns on the Words from the Cross.

The custom at this Service is to attend one or more of the Meditations, entering and leaving during the singing of the hymns. Beginning at noon, the Meditations will be held 12:20, 12:45, 1:10, 1:35, 2:00, 2:20, and 2:40, with the conclusion at 3:00. The public is most cordially invited to attend this simple but intensely devotional service, devoting a few minutes of the afternoon to an observance of the time our Lord was on the Cross.

On Easter Even, the Lenten Fast ends at sundown. At 4:00 p. m. the Paschal Candle, symbolizing our Lord's Risen Presence will be blessed and lit. Next the baptismal Font will be blessed and the Sacrament of Holy Baptism administered. In the evening Holy Penance will be available in the church from 7:00 to 8:00.

On Easter Day, there will be three celebrations of the Holy Eucharist. The 8:00 a. m. Eucharist will be accompanied by hymns with the Boys' Choir, and the 11:00 o'clock Eucharist will be sung by the Girls' Choir. The Anthem at 11:00 will be "Hosanna" by Granier, and the sermon will be preached by the Rev. Percival J. Jamieson, D. D., Assistant at St. Ignatius'. The public is invited to join in the age-old worship of the Church at St. Ignatius'.

After the 9:30 Eucharist, there will be a gala Easter Breakfast for the Church School and any adults who make their Communion then. Flowers will decorate the tables and will be given out to the children, as will candy.

4-H Girls Reorganize and Elect Officers and Select Two Projects

Fifteen girls met at the home of Mrs. Robert Carey March 25 in the meeting of the 4-H club. A few of the girls entered 4-H work for the first time. Meetings will be held at Mrs. Carey's home throughout the summer.

The club will have two projects, sewing and cooking. Eight will work on sewing and seven at cooking in Mrs. Carey's kitchen. They will make cookies.

Mrs. Polsgrove will direct the sewing class and the members will make a skirt and scarf. The club officers are Ann Anderson, president; Tammy Carrie, vice president; Barbara Novak, secretary-treasurer; Rejoice Stieber, reporter; Jean Brakeman, pep promoter; Mary Ann Kempf, program chairman; Marlene Bolton, music chairman; and Marlene Balek, refreshment chairman.

MISS OLGA HIMENS COLLEGE BOOK EDITOR

Miss Olga Himens, daughter of Mrs. Lucy Himens, a junior at the college of St. Francis, Joliet, has been named editor of Mary's Book, a volume of student writings in honor of the Blessed Virgin. The book will be published sometime during the month of May.

Miss Himens was recently given honorable mention in poetry division of a Marian literature contest sponsored by the National Federation of Catholic college students in the Chicago region. Her poem was entitled "Come Home."

TWO EASTER SERVICES AT THE METHODIST CHURCH SUNDAY

Two identical Easter services will be held at the Methodist church in Antioch on Sunday morning. The robed choir, under the direction of Charles B. Watson will sing at both the services. The first service will be at 9:30 and the second at 11 o'clock. The choir will sing two anthems, "They Have Taken Away My Lord" and "King of Kings". A solo, "The Resurrection Morn" will be sung by Mrs. Westleigh Carlsson. The Rev. G. Richard Tuttle will bring the Easter message.

Young people in the junior, intermediate and senior departments of the Church school will attend church on Sunday morning in place of the regular Church school. Those in the beginners and primary departments will have Church school as usual in the basement of the church. Parents desiring to attend the 9:30 service may leave their children in the basement at that time. There will be a nursery for babies and pre-Church school youngsters at both services.

Easter Lilies

Members and friends of the Church are being asked this year to lend their Easter Lilies in order that the Church may be appropriately decorated for the two services. Mrs. O. R. Kresse (Phone 150-M) is in charge of the flower arrangement. Those desiring to give flowers are asked to call Mrs. Kresse and leave the flowers at the church either on Saturday afternoon or early Sunday morning.

Good Friday Service

On Friday evening at 7:30 there will be a special Good Friday service in the sanctuary of the Methodist church. The service will have its subject, "The Greatest Life Ever Lived," and will include pictures, song, Scripture, and meditation. The robed choir will sing. The soloist will be Warren Heyne who will sing, "We Would See Jesus" and " 'Tis Midnight on Olive's Brow." This service of worship has been written and arranged by the minister to bring to a focus "The Greatest Life Ever Lived." The public is cordially invited.

FAMILY NIGHT AT METHODIST CHURCH NEXT TUESDAY

The monthly Family night of the Methodist church will be held next Tuesday at 6:30 p. m. in the basement of the church. George Good, chairman of the program announces that there will be two movies, one entitled "Unfinished Rainbow" and the other, "Clear Track Ahead."

A pot luck supper will start off the evening's activities. Those attending are asked to bring their own table service. Coffee, cream and sugar will be provided by the Woman's Society. Members and friends of the church are cordially invited.

Lake Villa Community Church

Route 21, at Cedar Avenue
R. E. Harrison, Pastor
March 9-15

CHRISTIAN SCIENCE SOCIETY

955 Victoria St., Antioch, Ill.
Sunday School—9:45 A. M.
Sunday Morning Service—11 A. M.
Wednesday Evening Service—8 P. M.
A reading room is maintained at the above address and is open Wednesday from 2 to 4 and 7 to 8. Saturday 2 to 4.

JOAN FELTER HOTCHKISS RECEIVES HER DEGREE

Joan Felter Hotchkiss, daughter of Mr. and Mrs. Virgil B. Felter, Addison Lane, Antioch, is among the 24 Knox college seniors who completed their graduation requirements during the winter academic quarter. She will receive her degree at the regular June commencement exercises of the College.

Mrs. Hotchkiss is married to Morton Hotchkiss of Wataga. She was an honor scholar during her senior year. She was a member of the band, and of Pi Beta Phi social sorority. She majored in chemistry while at Knox.

MR. AND MRS. JOHNSON PARENTS OF DAUGHTER

Mr. and Mrs. Bill Johnson, of Cross Lake, are the parents of a daughter, Judith Sue, born Saturday, April 1, at 11:04 a. m. weight 7 lb. 134 oz., at Victory Memorial hospital, Waukegan. Gramma Rueber says "Mother and babe are fine."

WILL SPONSOR CARD PARTY NEXT WEDNESDAY

Lakeside Rebekah Lodge will sponsor a public card party on Wednesday, April 12, at 8 o'clock, in the I. O. O. F. hall.

The intermediate M. Y. F. will not meet next Sunday because of the Sunrise Service. They will meet at the church at 5:00 a. m. then go to Fox River Park for the Sunrise Service, and have Easter breakfast at the church.

Library Notes

Whether you are blessed with a sunny room which you have turned into a greenhouse or just want to grow geraniums or English ivy in your kitchen window, "All About House Plants" will interest you. Montague Free was formerly horticulturist of the Brooklyn Botanic Gardens and he describes carefully many types of house plants and the best methods of cultivating them and combating the pests that attack them. "All About House Plants" was presented to the Antioch Township Library in memory of Mrs. George B. Bartlett.

Mrs. Ernest Erwin, of Albion, Michigan, is spending Easter vacation in Antioch with her brother, W. C. Petty and family. Mrs. Erwin is the former Mrs. Ruby Richey who for many years taught Home Economics at the Antioch Township High school. She is teaching at the Albion Methodist Private College.

The Young People's M. Y. F. will be leaving Sunday morning for Easter Sunrise Service, to be held at Fox River Park. Meet at the church no later than 5 a. m. (note new time change). Bob Wilton will lead Worship Services. The group will return around 9:00 for a hot breakfast to be served at the church.

Mr. and Mrs. Morris Pickens and daughter, Sonya, came home this week after vacationing in Florida.

Mr. and Mrs. Sidney Gover, who spent the winter in Florida, returned home recently. The Gover's are owners of the Trading Post, 900 Main St., Antioch.

Mr. and Mrs. G. VonToll, of Fremont, Michigan, are spending their vacation with their daughter, Mrs. Donald Stowe, and family.

Mr. and Mrs. Earl Pitman who have spent the winter in Florida, returned home Tuesday.

Mr. and Mrs. Richard Chapman returned home recently from a three months vacation in Florida.

CARD OF THANKS

I wish to express my sincere thanks and appreciation to all of my friends and neighbors for the many acts of kindness and sympathy shown during the recent illness and death of my beloved wife, Jane. I wish also to thank everyone for the many gifts and for the beautiful flowers.

Wm. Thiemann

Natural Bridge

Tonto natural bridge, near Payson, Ariz., is formed of white limestone and red coral and is 185 feet above the stream bed.

When Sick Call 6 - We Deliver

April Busy Month for Township High School, Events Schedule Shows

The Antioch Township High school has a busy schedule for the month of April as the calendar well shows.

Aside from a pause this weekend when time out will be taken for Good Friday and Easter Monday, various events will make the building a busy one during the next four weeks.

The schedule at present calls for: Thurs., April 6—F. A. A. party, 7:30 p. m. in school gymnasium.

Comptometer demonstration in the bookkeeping room.

Fri., April 7—Good Friday vacation.

Sat., April 8—School election noon to 7 p. m.

Mon., April 10—Vacation continues.

Tues., April 11—Classes resumed.

Wed., April 12—Northwest Conference principals meet at Palatine.

Lake Villa and St. Peter's grade school placement examination.

Thurs., April 13—Test for Chancel Lake, Grass Lake, Hickory Corner, Millburn and Emmons eighth grade students entering high school.

Fri., April 14—Grade school concert.

End of grade period.

Tues., April 18—Meeting of Agriculture advisory council.

Wed., April 19—Grades day.

Fri., April 21—Spring meeting of A. T. H. S. social organization.

Thurs., April 27—Eighth Grade Day. Pupils guests of high school.

2:30 p. m.—Assembly program with Edwin Rowland.

University of Wisconsin giving an illustrated lecture on wildlife.

Sat., April 29—Mother and Daughter banquet.

Great Lakes Choir Will Broadcast on National Hookup Early on Easter

A program of Easter music by Navy men and women at the Great Lakes (Ill.) Naval Training Center will be heard by radio listeners throughout the nation on Easter morning in a coast-to-coast sunrise service broadcast.

One of the Training Center's senior officers and some of the Navy's newest recruits, all members of the 120-voice mixed choir at Great Lakes, will join in the 30-minute program from the stage of the Center's Ross Auditorium, home of many famous Navy radio programs during the war.

The Navy men and Waves, most of whom are receiving their recruit training at Great Lakes, will go on the air at 7:30 a. m. CST, on April 9. They will be led by John F. Anderson, civilian director of the choir.

Mr. Anderson, a graduate of the Northwestern University School of Music, has been active for many years as a leader of symphonic and vocal groups. He will be assisted by Lt. Mabel V. Hughes of the Waves, who will be accompanist for the choir.

Captain Frank J. Grandfield, USN, Assistant Commander of the Naval Training Center, will be featured soloist for the program. He will sing Bizet's "Agnes Dei."

The Easter sunrise broadcast, presented annually over the facilities of the National Broadcasting Company, will consist of four 30-minute programs presented by groups across the country.

During the two-hour broadcast, which will begin at 6:00 a. m. CST, sunrise services from the following places will be heard: Walter Reed hospital, Washington, D. C., 6:00-6:30; Radio City, New York City, 6:30-7:00; Shrine of the Ages, Grand Canyon, Colo., 7:00-7:30; and Great Lakes 7:30-8:00.

In a later 30-minute program, which will begin at 11:30 a. m., sunrise services will be broadcast from Yosemite National Park, Calif.

Radio listeners in the Chicago area can hear the sunrise service programs over station WMAQ.

School Election Set For Saturday Afternoon Candidates Unopposed

Voting for school officials will take place in Antioch township Saturday afternoon.

No opposition to the three candidates for the Antioch school is seen. Emil R. Lubkeman is seeking reelection as president and Arthur Laursen and Henry J. Rentner as members.

Voting will be from 12 noon to 6 p. m.

For the high school board, Walter K. Hills, now serving his ninth year, is the only candidate to succeed himself.

Voting will be from noon to 7 p. m. at the Antioch High school building and at the grade school in Lake Villa.

Primary Election...

(Continued from page 1)

nomination. Three are to be nominated. The race is somewhat different this year than in the past in that three Republican candidates have been certified. In the past it has been the practice to certify two Republicans and one Democrat.

Candidates for the nomination are Nick Keller and Harvey Pearson, incumbents, Robert McClory, A. B. McConnell, Lawrence T. Bristol, and Harold A. Vogel. It seems that the nomination of Pearson is assured, with the other two nominations to be won by the other five candidates.

Keller, who has consistently run high vote getter in past years, is sure to poll a large vote in the primary. Of the other four, Vogel and Bristol seem to be favored, and both have made intensive campaigns.

Bristol is a resident of North Chicago, and is well known in this vicinity, his father and brother being the operators of a riding stable on Route 59, and his father, Harry L. Bristol, is a former resident of Antioch.

Harold A. (Hud) Vogel, is a Richmond, Illinois, man, and has based his strong appeal to Lake county voters on a "fair play" basis. He points out the fact that the western part of the Eighth Senatorial district has not had a representative for a generation. He adds that the two counties, McHenry and Boone, are predominantly Republican, but that due to the fact that they have not had a Republican candidate from that part of the district, most of these votes have gone to a Democratic candidate in the runoff election, in order gain representation for their part of the district. He has asked, in a series of advertisements, that Lake County voters save one vote for Vogel, in order to give a McHenry county man a chance for nomination.

Other candidates for the office are Robert McClory, Lake Bluff, and A. B. McConnell, of Woodstock.

State Offices Show Contest

In the contest for United States Senator, three candidates, Lar Daly, Everett McKinley Dirksen and William J. Baker, will vie for votes.

Seven candidates seek the nomination for State Treasurer. They are: Herbert B. Blanchard, Theron W. Merryman, Louis E. Nelson, Henry J. Samuel, James Simpson, William J. Stratton and Warren E. Wright.

Superintendent of Public Instruction has attracted two candidates, with Vernon L. Nickell and Clyde Franklin Burgess seeking the job.

William M. Marks, Lake Villa, is not opposed for the State Central Committeeman post.

Jos. N. Sikes is the only name on the Republican ballot for the Eighth Senatorial Committeeman job.

Small Field for County Offices

Three of the seven county offices to be filled have unopposed candidates for the nominations, with Mildred E. Hulse for County Judge not opposed; Charles E. Jack alone for the Probate Judgeship; Allen Nelson the only name for the Probate Clerkship.

The veteran office holder Gar Leaf is opposed by Gregory M. Sheahan for the County Clerkship. Leaf has a long record of satisfactory service in a number of county offices, and is certain to poll a large number of votes for this reason. Sheahan has been a deputy County Clerk for the past twelve years and is well acquainted with the duties and functions of the office.

Hugo L. Schneider, candidate for the County Treasurer nomination is opposed by Lew A. Hendee. Schneider has been an employee of the Treasurer's office for a number of years, and served as chief deputy during the past four years. He is thoroughly versed in the duties and procedures of the office. He will bring to the office the knowledge and experience necessary to operate the office efficiently. Hendee is an efficient manner. His opponent, former County clerk.

Walter L. Atkinson, veteran law enforcement officer and a former sheriff of Lake County, is a candidate for the nomination for sheriff. Atkinson has been endorsed by almost every organization in the county, and is considered a certain winner of the nomination. He is opposed by Clarence J. (Cal) Hoff.

W. C. Petty, Superintendent of Schools, is a candidate for re-election. Petty has held the office for more than twenty years, and has discharged the duties of the office in an efficient manner. His opponent, Bert D. Williams, has based his campaign on the slogan "It's time for a change."

Precinct Committeemen

John Russo will oppose Jack Wolff for the Precinct Committeeman job in Antioch 1. Other Precinct committeemen are not opposed. Laurel D. Powles is the lone candidate for the job in Antioch 2.

Democratic State

The Democratic primary ballot will carry the names of men for all offices with the exception of that of County Judge. Candidates are as follows:

For United States Senator, Scott W. Lucas; For State Treasurer, Michael Howlett; For Superintendent of Public Instruction, Mark A. Peterson.

Cardinal Lines to Start Interstate Service From Antioch to Twin Lakes

In an order issued March 8, 1950, by the Interstate Commerce Commission of Washington, D. C., Docet MC-57641, Sub. 17, Cardinal Lines, Inc., of Janesville, Wis., was granted authority to operate direct bus service between Chicago and Twin Lake, Wis. over the shortest and most direct route, serving the intermediate points of Niles, Wheeling, Half Day, Libertyville, Grayslake, Lake Villa, Antioch, Salem, Camp Lake, Silver Lake, Twin Lakes and Powers Lake.

According to L. J. Peterson, Secretary and Treasurer of Cardinal Lines, this new service will be placed in operation sometime in May and will be a great improvement over existing service for the thousands of vacationers from the metropolitan area of Chicago who spend their vacations annually in the numerous resort areas in Southeastern Wisconsin.

The order also grants authority to Cardinal Lines to operate interstate service from Waukegan to Lake Villa, Antioch, Twin Lakes, Lake Geneva, and Janesville, as well as to all other points outside the State of Illinois from or to Waukegan.

At the present time Cardinal Lines operates local service between Antioch and Chicago; Fox Lake and Chicago; Antioch and Waukegan; and Fox Lake and Waukegan. Hereafter there has been no direct bus service between Chicago and the Lake regions around Twin Lakes; travelers going to these points had to travel via a much longer route through Lake Geneva or via Kenosha. A number of trips will be operated daily, some Express and others local, according to Mr. Peterson. Cardinal Lines maintains its principal depot and ticket offices at the National Trailways Bus Depot, 20 East Randolph St., with other depots located at 4657 N. Western Ave., 24 E. Roosevelt Rd., and Jefferson Park, Chicago.

Peterson stated this authority will permit their company to transport passengers from these cities to points outside the state of Wisconsin or vice versa. Operations are presently conducted over these routes in Wisconsin intra-state service.

McConnell Bases Campaign On Ability to Say "No"

A. B. McConnell, of McHenry County, Republican candidate for the Illinois legislature, eighth district, has based his campaign for that office on his intensive background of study as regards farm, city, education and tax problems.

He is a farmer, and therefore he is interested in the many problems affecting agriculture. He is a member of the McHenry County Board of Supervisors and his record of honesty and integrity in handling the many tasks that confront men of this board, has been an enviable one.

He is on record as voting "no" to the project of erecting a costly addition to the McHenry County court house and also for his "no" vote on placing the two million dollar bond issue on the ballot this spring for road improvements in McHenry County under a stepped up program, projects that would cost the taxpayers of McHenry county hundreds of thousands of dollars.

Injured in Car Accident

Truman Dunham, of Pittsfield, brother of Mrs. Fern Lux and Mrs. Robert Wilton, was seriously injured in an automobile accident Monday, Mr. Dunham and his nephew, Warren Tedrow, were returning home from a trip to Kansas City, Missouri, when they were sideswiped by a truck. The Dunham car was demolished. Mr. Dunham has both legs broken and other injuries. His nephew was badly cut and bruised. They are both in a Pittsfield hospital. Mrs. Wilton and sons Robert and Billie and Mrs. Lux plan to leave Friday for Pittsfield.

Walter V. Ryan, manager of the commodity division of E. F. Hutton Co., Grain Brokers of Chicago, died Wednesday, March 22, and was buried from his Chicago residence on Saturday, March 25.

Services were from St. Hilary's church with interment in All Saints cemetery.

Mr. Ryan for the past 22 years has been a summer resident at the estate of his uncle and aunt, Mr. and Mrs. Oscar Gleichner, of Voltz Lake, Wis., and a summer parishoner of St. Peter's church. He was well known to the members of the community and the business people of Antioch.

Catching Cold

Polls and surveys show that more women catch colds than men. Only man and chimpanzees suffer colds. Dogs, cats, rabbits and other lower animals cannot catch cold.

Irving W. Carey Will Head Salvation Army Drive in Antioch Area

Dallas P. Leader has established a Salvation Army Service Unit in Antioch and selected Irving W. Carey chairman of a local committee with William E. Brook acting as treasurer.

The committee will conduct a campaign to raise funds for local and regional welfare needs. Special letters will be mailed to local citizens requesting contributions to be mailed to the treasurer Mr. Brook. The campaign will be conducted annually, and will get under way within a short time.

On completion of the campaign, a portion of the money raised will be left with the local committee for a program of health, welfare, and cultural activities. Such needs as clothing for school children, dental, optical, and medical assistance, and family welfare needs of all kinds will come within the scope of the local program.

There will be no restrictions on the use of the funds, and the local committee can render service at the point of need, to the limit of their funds.

The remainder of the amount raised will be used to provide maintenance of a maternity hospital for unmarried mothers, fresh-air camp benefits for mothers and children, services to Veterans, and other regional services, including a reserve for emergencies and disasters. The regional program is available to Antioch whenever the need arises.

Mr. Brook urges everyone to give liberally when the Salvation Army drive is conducted here.

Other local committeemen cooperating with and sponsoring the newly established Service Unit are: Roy Kufalk and Margaret E. Gaston.

Lake Villa to Open Township Library, April 11

A double-barreled program for next Tuesday, April 11, was announced today by the Lake Villa Community Men's Club.

First, the long awaited Lake Villa Township Library, which has been worked on during the past four years by both the club and the Lake Villa P. T. A., will be formally opened at 10 a. m. in the Village Hall. It will be open from 10 a. m. until noon and will open at 1 p. m., closing for the day at 5 p. m.

The library is under the direction of Mrs. Herman Meinersmann. The library committee of the club has William Marks as chairman with Ben J. Cribb and John Henning as associates.

Opening has been coincided with Election Day so the greatest number of residents of the Township will have an opportunity to look over the premises, which have been completely redecorated and furnished by the Men's Club.

For the time being the library will be open every Tuesday and Saturday. After opening day Tuesday hours will be 1:30 p. m. to 5 p. m., while Saturday hours will be from 10 a. m. to noon and from 1 p. m. to 5 p. m.

Members of the P. T. A. and other ladies groups are rendering valuable assistance in conducting the library, which will fill a long felt need in the Township. All books may be drawn free by any resident of the Township, who enrolls.

Tuesday evening at 7 p. m. in the Lake Villa School gym the regular monthly meeting of the club will be addressed by Milton Wright, president of the North Shore Area Council of the Boy Scouts of America. Five of his associates on the council will accompany him to tell big plans the Scouts have for this area.

The Men's Club has sponsored revival of old Troop 84 of Lake Villa and at the second meeting last Monday 38 boys were present to hear Scoutmaster Harold Severson outline plans for the near future.

Walter V. Ryan, Chicago Summer Resident of Voltz Lake, Known Here, Dies

Walter V. Ryan, manager of the commodity division of E. F. Hutton Co., Grain Brokers of Chicago, died Wednesday, March 22, and was buried from his Chicago residence on Saturday, March 25.

Services were from St. Hilary's church with interment in All Saints cemetery.

Mr. Ryan for the past 22 years has been a summer resident at the estate of his uncle and aunt, Mr. and Mrs. Oscar Gleichner, of Voltz Lake, Wis., and a summer parishoner of St. Peter's church. He was well known to the members of the community and the business people of Antioch.

George Henry Stott Dies in Hospital

George Henry Stott, 1084 South Main Street, died suddenly March 31 at 2 p. m. at Victory Memorial hospital, Waukegan. He was born March 3, 1950.

Survivors are his parents, Harry and Lillian Stott, a sister, Diane, his paternal grand parents, Henry R. and Emma Stott and two uncles, George and Clayton Bartlett. The late George B. and Lillian Bartlett, were his maternal grand parents.

Private funeral services were held from the Strang funeral home Monday at 2 p. m. The Reverend Roberts Ehrigott of St. Ingalls church officiated. Interment was in Hillside cemetery.

Former Resident of Cross Lake Dies

F. B. Christman, 82, a former resident of Cross Lake died of a heart attack at the Wells Private rest home in Elgin, Friday, March 31, following a lingering illness. Funeral services were held in LaGrange.

Concert of High School Chorus, Band Successful

The annual spring concert of the Antioch Township High school was well attended Friday and the program well received.

The chorus under the direction of Hans Von Holwede, sang eight numbers of popular and light opera type of music and the band, likewise under Mr. Holwede's direction played eight numbers, mostly waltzes and marches.

Mrs. Louise W. Bates Dies at Salem, Wis. Funeral Here Saturday

Mrs. Louise Wildner Bates, 81, of Salem, Wis., died last Thursday at the home of her daughter, Mrs. J. J. Nickel there.

She was born May 22, 1868 in New Lisbon, Wis., and previous to moving to Salem 10 years ago, spent 40 years of her life in Chicago.

The daughter, Mrs. Carla Nickel, a grandson, Charles Peterson, and a granddaughter, Mrs. June Olsen, survive. Three step grandsons, and three great grandchildren also are living.

The funeral was held Saturday afternoon at the Strang funeral home in Antioch with the Rev. E. D. Hulse in charge. Burial was in Liberty cemetery.

Boat Found

An unclaimed flat-bottom wood rowboat was found this week in Lake Marie channel between Channel Lake and Lake Marie. The owner can claim it at Dad's Shady Inn.

Sugar Country

In an area less than that of New York city (about 365 square miles), the Hawaiian Islands grow one-fourth of all the sugar produced under the American flag.

Berlin Airlift

When the Berlin airlift was in operation, coal was flown in paper bags and often the bags were serviceable enough to be used three times.

Leather Soles

Leather soles are cut from tanned cowhide in hundreds of sizes by enormous power presses, attached to shoes, and then trimmed by mechanically driven knives guided by skilled operators.

Eclipse of Sun

Each year there are at least two eclipses of the sun, which occur when the shadow of the moon falls on the earth.

WE WISH TO EXTEND EASTER GREETINGS TO ALL OF OUR FRIENDS AND CUSTOMERS

Masseur, Blind 18 Years, Regains Complete Eyesight

HOPKINTON, MASS.—Totally blind for 18 years, Edward R. Ray, 63, a masseur, has reported his sight has returned.

"It's true," he told newsmen happily. "I'm sitting on top of the world. In fact, it's a whole new world."

Ray said his eyesight came back to him suddenly but he waited 36 hours "to be sure it wasn't a cruel freak."

Ray's optometrist, Dr. Edwin T. Olson of Worcester, called the event "a most astonishing thing." Dr. Olson said he had examined Ray frequently in the last eight years, adding, "There seemed nothing to be done to help him."

Dr. Olson said he had not examined Ray since he said his sight was restored. He said Ray was "too excited" to be examined yet. Ray said he was walking through a hall to the kitchen in his home "when suddenly everything became bright."

"I was so startled I stood stock still," he said. His brother-in-law, Joseph Deegan, was visiting at the time, Ray said, and was sitting in kitchen with Mrs. Ray.

"My God, I can see!" I shouted to Deegan," Ray went on. "He looked from me to my wife, and then his brother Charlie walked in. The three of them looked at one another. They must have thought I was crazy."

"I went over to the kitchen table and picked up a newspaper and read out the headlines. They believed me then."

"The thing that impresses me the most," Ray went on, "is the brightness of things. Everything is so colorful and I had almost forgotten what colors looked like."

His eye trouble began when he was 9, Ray said. While playing games, a stick struck him in the right eye, he said, and eventually cost him the sight of that eye.

For nearly 35 years, Ray said he was blind in one eye and the other was gradually weakening. In 1931 he became completely blind, Ray said.

Air-Conditioned Bed Intrigues Purchasers

GRAND RAPIDS, MICH.—An air-conditioned bed got more than a second look from buyers at the semiannual Grand Rapids furniture market.

The bed had a foam rubber mattress with holes punched in it for cooled air to come up around the occupant.

The air-conditioning unit was installed in a 36x78-inch bed frame built to the floor. It had air filters, fans and a container for water or dry ice, and was controlled by a thermostat.

The bed, a product of Walter B. Stiles, had a heating element for cold weather. With the thermometer hovering around 96 degrees in the building, buyers paid little attention to that phase of the bed.

Mystery of 'Lost Colony' Holds Allure for Tourists

MANTEO, N. C.—The mystery of what happened to the "Lost Colony," first English settlement in America, probably will remain unsolved forever.

No detective, however, is needed to find the cause for the tremendous success of the symphonic drama based on the ill-fated colony established by Sir Walter Raleigh here on Roanoke Island in 1587.

The public simply won't let it fold. As a result, "The Lost Colony," a drama written for a one-season stand back in 1937, began its ninth year of production. Staged in an amphitheatre seating more than 3,000 persons on the historic site of Fort Raleigh, three miles north of here, "The Lost Colony" has become a major tourist attraction.

The drama had its premiere on July 4, 1937, to memorialize two events which occurred at Fort Raleigh—the establishment of the first English colony in America and the birth of Virginia Dare, the first English child born in the new world.

Planned as a local, one-season production, the drama had hardly finished its first season before requests to repeat it began flowing in from everywhere. Produced again in 1938, "The Lost Colony" proved itself a solid hit.

Repeated each July and August from 1937 to 1941, the drama was revived in 1946 following a four-year wartime suspension, and was witnessed that year by 52,000 persons.

Faulty Memories Catch Two Million Americans

KANSAS CITY, M.—Faulty memories caught up with almost two million Americans last year, and the Hallmark greeting card company here has proof. It rescued them with that many "belated" birthday greeting cards.

The firm published belated greetings for forgetful wives, husbands, sons, daughters, and friends—for a total of 20 different such occasions. And if sales continue to mount the number of cards devised for overlooked occasions may be increased.

Are there cards for husbands who let their wedding anniversaries slip by unnoticed? But yes!

HUMAN PHOBIAS

Face Fears, Victims Told

CHICAGO.—If you are a victim of a phobia, the best possible thing is to do the thing you fear most, that is if you'd like to get rid of the phobia.

That's the way a Yale psychologist prescribes for those who are victims of some mania which sets them just a little bit apart from the normal individual.

Dr. William B. Terhune, associate professor of psychiatry at Yale, said that phobias appear in young adults "when an apprehensive, dependent, emotionally immature person is trying to realize his ambition and become an independent, successful member of society."

He added: "Patients who suffer from the phobic syndrome (group of signs and symptoms that appear together) are afraid to venture into the world alone, and when they do they feel the need of protective influence. They carefully avoid crowds and all social gatherings, as well as open spaces."

Avoid Many Places
"They refuse to enter any place from which they cannot escape quickly and with dignity. They refuse to attend parties, go to restaurants, ride on trains, elevators, subways, airplanes or ships; or go to beauty parlors or beauty shops. Some such persons refuse to enter theaters, schools, churches, stores, offices or factories."

He reported in the archives of neurology and psychiatry that he treated 86 persons. Fifty-eight were cured, 21 were sufficiently improved to work and live efficiently and only showed slight or no improvement.

Dr. Terhune said simple reassurance is not enough. He put his patients on a daily schedule including group work, rest, exercise and play. The patients take an hour walk first with a group. Then the patient begins to do some of the things he feared.

Given Objective Project

"For example, after the patient has several times walked a country road with others, he takes his walk alone. To divert his attention from himself, he is given an objective project—he makes a rough but fairly accurate map of the road he travels, indicating houses, lakes and side roads. He is then assisted to take short train trips alone, with doctor's orders, to make certain definite purchases while in town, these purchases involving considerable planning while en route. In each instance he has employed not his emotions, but his "intelligence."

The patient then does other things he has feared and is "put through the reconditioning process repeatedly and never again is allowed to avoid the things and situations from which he has been escaping. Lastly, to obtain independence, the patient is "emotionally divorced" from the parent or parents on whom he has leaned.

Temple of Tooth Renewing Old Spirit of Ceylon City
KANDY, CEYLON.—Through its Temple of the Tooth, the spirit of old Ceylon is the spearpoint of newly-free Ceylon's modest effort to edge into the company of larger nations.

Here in Kandy, the spirit of old Lanka, as Ceylon was called in her Golden Age long ago, comes to life every evening just after the early tropical sunset. Buddhist drums and the keening of small spheroid flutes call worshippers to the Temple of the Tooth.

To walk along with the sound and the infirm, the aged and the young, to the Temple of the Tooth from the modern hotel two blocks away, is to step abruptly into an era that was old before Christianity was born.

The Tooth, reputedly from the jaw of the Lord Buddha himself, was brought to Ceylon—according to the story told by a contemplative, shave-headed priest of indeterminate age—2,300 years ago by Princess Hamamali and Prince Danthe, sent from India to missionize by the Buddhist Emperor, Asoka.

It is on public view once a year, during the Perahera, when it is escorted about the streets of Kandy by upward of 100 magnificently decorated elephants and scores of flamboyant Kandyan dancers.

By virtue of the Tooth, and the Buddha's legendary three visits to the island, Ceylon lays claim to being the Holy Land of Buddhists throughout the world.

Fabulous Flapper of '20's Reported Due for Comeback

NEW YORK.—Don't look now, but the fabulous flapper of the terrible '20's is due for a comeback in the fretful '50's.

Newest indication of that probability is the return of the short evening dress, a favorite of the jazz age, now gaining general acceptance in the bebop era, along with the shingle bob, the shorter skirt and the "bunny hug" coat. Although the short evening dress has been appearing in fashion columns for the past four or five years, it did not establish itself as a major fashion in all price ranges until recently.

Hamsters Build New Industry On Gulf Coast

NEW ORLEANS.—A new Gulf coast industry is being built around a small four-handed furry animal with a big name.

The weak-eyed little fellow commonly is known as the hamster, but to the scientific-minded the proper name is mesocricetus auratus.

He looks like a cross between a field mouse, a guinea pig and a monkey.

With two pairs a breeder within a year may raise 100,000 and with the animals selling at \$9 to \$15 a dozen this can be a lucrative business.

The slow-eyed light golden brown rodent's four feet look like miniature human hands. On them he can scot backward almost as fast as forward as he darts around his little cage.

The hamster first was found in the early 1930s by an explorer excavating near Aleppo, Syria. He shipped a mother and eight hamsters to London, where scientists immediately became interested.

Speed Laboratory Work

Because the warm blooded animal reacts to serums in 10 to 14 days—a much shorter period than is necessary for rats and guinea pigs—laboratory work can be speeded. The hamster is subject to all the human ills that affect rats and guinea pigs and is highly favored by scientists.

The first hamsters shipped to the United States were sent to the U.S. Marine hospital at Carville, La., the nation's only institution for the treatment of leprosy. Today they are to be found in virtually every important medical laboratory and medical school.

Because the hamster thrives in temperatures between 65 and 75 degrees the Gulf states have been found an excellent habitat. One large hamstery is at Mobile, Ala., and there are two here. All find a ready market for the animals in pharmaceutical laboratories.

Hamsters make captivating pets, too. With their beady black eyes, their soft fur and their baby-like hands they seem to appreciate affection and become quite tame when handled. They are free of odor, have neither lice nor fleas and are subject to no ills of their own.

Hides His Food
The hamster stands about five inches high on his hind hands and likes to stand and brush at his nose with both front hands prior to eating. He is fond of hiding and usually builds a small den of straw or hay in a corner of a cage. There he stores part of his food and hides his young at the approach of danger.

Hamsters eat sparingly of dog food, poultry pellets and greener vegetables and frequently store little bits of food in the pouch behind each rat-like ear. On occasion when moving her young, a mother hamster will store one of her inch-long babies in the pouch.

There is little work in raising the animals and many breeders in this area do it as a hobby. Little room is required, as the average cage is but 12 by 18 by 8 inches.

Doodlings on Cliffs Puzzle Archaeologists

LAS VEGAS, NEV.—Archaeological sleuths are facing a perplexing "whodunit."

The mystery concerns numerous doodlings found on the steep cliffs and rock-strewn floor of nearby Keyhole canyon in the heart of the Mojave desert.

Two diversified schools have their own solution, but both agree these latest finds of the primitive art of leaving a mark, date back at least 1,000 years.

The doodles, or petroglyphs—as the more technical folk call them—have intrigued archaeologists and students of Indian lore ever since their discovery.

One school headed by Dr. George Baldwin, archaeologist with the national park service, says it was the work of the Patayans who disappeared from Nevada culture around 1200 A.D.

On the other hand, Dr. Robert Fenlon of Boulder City, Nev., contends the petroglyphs are the work of the "little men." The "little men," Dr. Fenlon asserts, were perfectly formed midgits about two feet tall, who were the leading citizens of the area in the first centuries of the Christian era.

Flooded Basement Fails To Interrupt 'Bookie'

CHICAGO.—Police raided a flooded basement here and arrested a handbook operator taking bets while seated on a raft.

Police Capt. Thomas Alcock said that Arthur Olson, 33, was "padding furiously" between three telephones, taking bets on the horses. Alcock and two detectives raided the place after getting a tip that a handbook was operating in a tavern basement. With a crowbar they pried open a trapdoor in the tavern above and dropped into four feet of water.

Olson, hustled to the police station, said the basement was flooded by last night's rains. He said he made the raft himself.

Only The Blind Get to 'See' Science Items

LONDON.—If you can see, you can't get into the London science museum's popular science exhibition. It's for the blind alone. They "see" with their hands.

The museum thinks it is the first one of its kind anywhere in the world.

Officials conceived the idea when a blind boy—surrounded by magnificent exhibits in glass cases—asked what was the good of a museum to him. He couldn't see the exhibits, he said, and he could not touch them. All he could do was listen to a guide.

Officials gave some valuable exhibits to the boy to handle—and took the lesson to heart. Next day they hauled out scores of choice items and arranged them on tables in a special room. The national museum for the blind hastened to provide descriptive labels in Braille. Now the exhibition is thronged every day.

Housed Wright Plane

The science museum is the one that housed the plane the Wright brothers flew at Kitty Hawk, N. C., in 1903. It was displayed as a prize exhibit from 1928 until last year, when it was sent back to the Smithsonian Institution in Washington.

The exhibition for the blind has everything from a three-foot replica of an ancient Egyptian chariot wheel to the real thing in Spitfire, aircraft engines. There are models of aircraft, locomotives and ships, an old spinning wheel, hand looms, mine rescue apparatus, tuning forks, A 14th century axe. All are strange and wonderful to the sightless.

The Spitfire engine sits ponderously on the floor near the door. The blind go over it lovingly, fingering every bolt. One man, fascinated, put in two hours "looking at it."

That's what they say—"looking," not "touching." "Quick, look at this!" blind schoolboys call excitedly to blind companions.

No Fear of Damage

The museum isn't afraid the exhibits will be damaged. The blind have a feather touch.

"Seeing" the exhibition is a two-handed job. Visitors use their left hand to read the braille description while their right races over the exhibit.

"You wouldn't think a kid could fall in love with a sun-recorder, would you?" an attendant asked, pointing to a blind boy running his hands over the smooth, round glass instrument. The boy snuggled his cheek against it; he still was "looking" much later.

The museum doesn't know how many of Britain's 76,000 blind will visit it. But the exhibition is packed every day. Parties of blind schoolchildren have traveled as far as 80 miles. That's a long way in England.

For blind youngsters, a visit is "better than listening to the circus." That's what one told his mother.

Freight Haulage

Railroads in 1948 handled an average of 1,170 tons of freight per train, the highest for any year on record, and an increase of 80 tons above the average for 1947.

Mushroom Soup

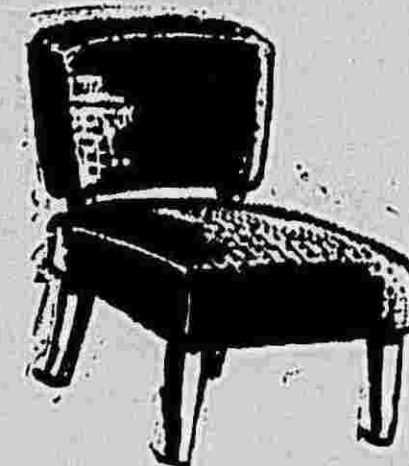

Canned mushroom soup combined with canned chicken soup produces a combination that is unusual and tasty.

Less in Bank

"Emergencies and sickness" were named by many people as a cause for their having less in government bonds and bank accounts in 1949 than they had in early 1948.

Effect of Weeds

One acre of mature weeds in a field of corn will rob the crop of 75 tons of water during the growing season.

Salem Recreation lost two games to Regal China. R. Moreth 438 for Salem. H. Vogler 449 for Regal.

CORRECTION

Some of our mistakes are just plain stupid, some are caused by the pressure for speed in last minute reports, and some are caused by persons who should be trustworthy taking some small liberties with the truth.

The last was the case in the report of the match game between the Seyfarth ladies team and the Seyfarth men's team last week. The gentleman who wrote the notes on the game evidently thought that it would be a good joke to falsify the record and put the ladies in a bad light. He reported that the girls' total score for the series was 1895. This should have read 2390. The men's score was printed 2510, actual score was 2464. The handicap given the ladies was reported as 146 per game, actually it was only 46.

Vos Asks Permission

To Enlarge Scales

The street committee of the village board was asked to investigate the request of Ed Vos that he be permitted to lengthen the public scales at his lumber yard on Depot st., to take care of the longer trucks and other vehicles.

Vos sent word to the board that he had intended to change the scales to the yards, but came to the conclusion that it would block business there.

The trustees appeared to be in accord with the plan because it does not appear to interfere with traffic on the street and provides a service that cannot be obtained except at distant points.

The investigation to make sure that there is no valid opposition will be made before approval is given.

Supt. W. C. Petty

Seeks Re-Election

Antioch is expected to give a big vote for its townsman, W. C. Petty in his race for re-election as county superintendent of schools.

Years of experience and a thorough knowledge of educational laws and procedures have made him a valuable man to the county and he is highly respected by educators over the state.

Supt. Petty has weathered trying times in helping bring schools of the county up to a high standard of efficiency, and has added training for the physically handicapped in recent years.

Because of the reflected honor, the community has received through his prominence in educational affairs, it is expected that the voters here will turn out in large numbers to keep the job for the local man.

Azizia, Near Tripoli,

Holds High Heat Mark

WASHINGTON.—You think you live where it's hot? You should live in Azizia.

That's a town in northwestern Libya, about 25 miles south of Tripoli, where the highest temperature ever recorded under standard conditions was taken September 13, 1922. On that day the thermometer soared to 136.4 degrees, the national geographic society reported.

If you prefer to confine your research on heat extremes to the United States, visit Death Valley in southeastern California. An official reading of 134 degrees has been taken there at the weather bureau station on the valley's edge. Even higher temperatures, ranging up to 150 degrees, may occur in the low-lying interior.

For those interested in seeing how low the temperature can drop the place is the northern Siberian village of Verkhoyansk. Thermometers there hit 90 below zero in February, 1892—a reading still recognized as the world's record.

These are the meteorological champions—the official temperature extremes—but there are plenty of other claimants to thermometer fame.

Along the coast of the Persian gulf in southern Iran, for instance, unofficial temperatures of 150 to 180 degrees have been taken in the boiling sun.

Priest Witnesses 'Unusual' Deeds Of Busy 'Spirit'

LIVELY GROVE, ILL.—A Roman Catholic priest has expressed belief that mysterious happenings at a farm near here centering on 11-year-old Jerome Greten "might have been the work of his guardian angel."

The Rev. Edward Dahmus, parish priest at near-by St. Libory, said in reply to a question, "I couldn't say that it was a miracle, only that it was very unusual."

Father Dahmus described Jerome as "a normal boy, who would not be considered especially religious."

The priest made an investigation at the home and reported a spirit wrote brief answers to questions he asked in the presence of Mr. and Mrs. Tony Greten and several neighbors. This happened on several occasions, Father Dahmus said.

The priest said the messages were written on paper in Jerome's room after the paper and a pencil had been placed between the boy's bed and the wall. None of the messages was written while persons in the room were looking at the paper and pencil, he added.

The "spirit manifestations" first began the night of May 1 with a knocking on Jerome's bed. They occurred almost every night until early in June, when they suddenly stopped, members of the family reported. The Gretens are parents of nine other children.

Father Dahmus said the spirit wrote that it loved "Mary, the Mother of God," and when asked whether it had ever been on earth in bodily form, answered "X—Yes."

The priest added that when he asked for the name of the spirit, the letter "X" appeared on the paper.

The pencil was thrown across the floor on several occasions, the priest said, when questions that might be considered improper were asked.

Father Dahmus, 70, declined to say whether he has received any comment from Bishop Albert Zurorowe, Belleville, Ill., on the matter. The priest submitted a written report on his investigation to the bishop, who made no statement on the matter.

Woman Defeats Burglar

By Using Butcher Knife

CHICAGO.—A five-foot woman manager of a downtown candy shop used a butcher knife to fight off a husky holdup man wielding a penknife.

Two policemen captured Charles Sanders, 23, after a short chase from the Dutch Mill candy shop. He had taken \$14 before he fled.

Sanders is six feet tall and weighs 210 pounds. The manager, Mrs. Elizabeth Bergstrand, 52, who weighs 100 pounds, struggled with Sanders briefly, then ran to the street, shouting a holdup was in progress. He fled after her. In their scuffle she suffered a small finger cut.

The man gave his address as San Antonio, Tex. Police said he told them he came here from Texas and had robbed another candy store of \$15.

Fire Department Called

To Cool off Turkeys

HAGERSTOWN, MD.—The fire department was called out to cool off 6,000 turkeys.

As the mercury climbed to 100 degrees, 500 gobblers on Adam Martin's near-by farm keeled over and died.

Martin, already out \$2,500 worth of birds, put in a hurry call to city officials. They sent out a fire truck. The firemen spent the rest of the afternoon shooting cooling streams of water into the air and over the survivors.

Meat Bones

Meat flavor is in the meat and removing the bones has no effect upon it. Their removal makes many cuts easier to carve and conserves frozen storage space.

Poultry Flocks

A laying mash and a grain mixture in separate feeders constantly before pullets for one to three months after housing will help keep poultry flocks in production as fall approaches.

Lebanon In Effort To Preserve Last Of Famed Cedars

BEYROUT.—Lebanon is making a determined effort to preserve its few remaining cedar trees—famous through history as a building material.

Once the mountain ranges were covered with the great, spreading trees.

Now these slopes, gradually denuded down the centuries, are nearly bare, only a few groves remain.

The cedar is to Lebanon what the American eagle is to the United States. As the emblem of the country, it appears on coins, stamps, military decorations, and official papers. To protect the few trees remaining, Lebanon has forbidden further cutting without special government permission.

And when one tree is cut down the person who does it must plant 50 new trees. A 20-year reforestation program, to start next fall, includes plans to set out thousands of young cedars on the cool slopes where they grow best.

Lebanon cedar—a hard and lasting wood—was used for thousands of years by civilizations now long perished.

Flying Family Needs Score Card to Enumerate Members

NEW YORK.—The Buhler family, migrating in a flock like the birds, flew into New York—and it was hard to keep track of them without a score card.

Fourteen Buhlers, the oldest 56 and the youngest five months, got off a single plane at LaGuardia Field.

With 727 pounds of baggage, the family was enroute from their old home at Carrot River, near Saskatoon, Saskatchewan, Canada, to live in Asuncion, Paraguay, because they want to live in a less cold climate. They are farmers.

"We expect it to be a bit rough at first," said Peter A. Buhler, head of the family. "But we'll clear the land and raise wheat, alfalfa, sugar cane and corn."

Two married Buhler children stayed in Saskatchewan.

Papa Buhler said the 7,000-mile trip is setting him back \$5,700 in airline fares.

Locomotive Whistle Gives Way to Diesel Train Hoot

PHILADELPHIA.—The nostalgic wail of the steam locomotive, which stirs the imagination of many a farm boy, is gradually giving way to the modern but less romantic hoot of the diesel-electric.

Though still far from extinction, the famed Mikados, Pacifics, Hudsons and Mountaineers of American song and story are heading for the last roundhouse in a steadily increasing ratio.

Yards that scrap giant steam locomotives are doing a thriving business these days, reports R. R. Zisette, general sales manager of SKF Industries, Inc., which pioneered anti-friction equipment for both types of locomotives. It takes 80,000 man-hours to design and build a locomotive—but less than eight hours to scrap one.

"In the last two years, 4,800 steam locomotives were retired, while only 138 were ordered," he says. "In 1948 alone, 2,678 diesel-electric units were ordered as compared to only 69 for steam—a rate of more than 38 to one. Since 1942, the number of steam locomotives in service has declined by more than 6,800 while the number of diesel-electrics has increased by nearly 4,000.

Steam locomotives still account for nearly 85 per cent of all railroad motive power, he says, but the swing to diesel-electrics increases in momentum each year.

Costs of diesel-electric locomotives range from \$100,000 for a 1,000-horsepower switcher to more than \$600,000 for a 6,000-horsepower freight unit.

Fire Enthusiast Keeps

Fire Alarm in Bathroom

BOSTON.—Benjamin M. Ellis, who claims to be the nation's No. 1 "spark," even has a fire alarm gong in his bathroom.

The 56-year-old fire-appliance company executive says he has witnessed 43,202 fires from Alaska to Florida since 1901. They involved total damage of around 10 million dollars.

Ellis' five-story home on Beacon Street has a fire alarm gong on each floor.

Speech Practicer Embarrassed As Law Fails to Comprehend

MILWAUKEE.—The next time Whitley Berghofer practices speech making, he'll choose a place less public than a downtown street.

While waiting for his wife to shop, Berghofer decided to rehearse a speech he had to make. So he gave his car a "talking to," complete with arm waving and finger shaking.

A policeman witnessed the exhibition for a while, then walked up to Berghofer's car and demanded how many drinks he'd had. Berghofer embarrassedly explained.

Doctor Treats Healthy Folks In Risky Roles

NEW YORK.—Most doctors treat sick people. But Dr. Vincent Nardiello's patients generally are strong, healthy brutes built like human bulldozers.

They just happen to be in an unhealthy business.

As a house physician at Madison Square Garden, Dr. Nardiello never runs short of variety. His cases range from a cowboy's brain concussion induced by a horse to a small boy's stomachache induced by too much circus candy.

The spectators, you see, are a health problem, too, in an arena which seats 18,000.

The doctor has repaired the fractured wrist of a Democratic judge who fell off the platform during a Republican rally (no foul play was proved). He has treated the black eyes of fight fans who got to fighting, themselves. He has ministered to spectators for heart attacks brought on by thrills, for slight bruises caused by a rodeo calf which suddenly appeared in the box-seats, and for some of the world's classiest bites at championship dog shows.

Cowboy Customers

During the circus, Dr. Nardiello averages about 10 kids a day who are brought to his office with complaints of headaches, dizziness or stomach pains all brought on by overeating.

But generally the short, chunky house doctor is kept busiest by the assorted athletes and performers most of whom are in top shape when they enter the Garden.

His most frequent customers are the rodeo cowboys. During their stand at the Garden, he averages 15 to 20 cases of dislocated shoulders, fractures, bruises and rope burns every night. In recent years there were two cowboys who died within four minutes after being kicked by horses.

The most durable athletes Dr. Nardiello knows are hockey players.

"I'll never forget Johnny Mowers, the Detroit goalie," the doctor says. "One night about five years ago he was smashed squarely in the teeth by a flying puck. He took 20 stitches and was back on the ice in 15 minutes."

He Needled 1,500

The biggest single job the doctor ever had at the Garden occurred in 1947, when he inoculated some 1,500 circus employees, including the tattooed lady, for smallpox.

One of the most tragic involved treating a trapeze flyer for shock and hysteria a few years ago. The man had tried to jump from an aerial platform after seeing his wife and partner miss her grip and fall to her death.

The performers closest to the doc's heart are the fighters. He used to be one himself, fighting for a time as a lightweight to work his way through medical school.

Dr. Nardiello is 60 and still very busy. He generally doesn't leave the Garden until after midnight, and the Garden is dark only one or two nights between Labor day and late spring, when the circus ends.

Man Obtains Court Order To Get Bed from Stepson

BOSTON.—It took a court order, but George MacMasters may sleep now in the master bedroom of his Holbrook home.

His 14-year-old stepson, John Rock, must stop "usurping" the big bedroom and from now on must sleep in a smaller room in the attic.

Judge John E. Swift fixed the sleeping arrangements in Suffolk county superior court. At MacMasters' request he issued a temporary injunction restraining the boy.

The 40-year-old linoleum-factory pressman had charged that he was "prevented from enjoying the ease and comfort of my own home." He asked the court to declare his stepson a trespasser in the home.

MacMasters told Judge Swift his stepson's "misbehavior is inspired by his mother," Mrs. Ann Rock MacMasters, from whom MacMasters is seeking a divorce.

Electric Shocks to Test Elephant Fence Strength

PORT ELIZABETH.—Giving a herd of wild elephants electric shocks to save them from extinction has posed the problem of how strong a shock must be given to make an elephant jump.

In erecting an electrified fence to discourage the dwindling herd of elephants of the Addo bush near here from straying over farm lands where the farmers will wage war on them, the keepers mapped a plan to test the shock.

The elephants will be led to the fence by a trail of oranges—about 1,000 oranges being used—with the idea that the beasts will follow the juicy trail and lean against the fragile-looking fence to knock it down. Then they'll get a surprise. When experts find how much current is needed, they will fence the whole area where the elephants roam.

INTESTINAL ILLS

THREAT TO PIGS

Intestinal diseases can ruin the year's pig crop.

One type of enteritis (intestinal inflammation) is caused by a contagious virus, another is due to a germ like that responsible for human

Several different kinds of fatal

cholera. Virulent germs akin to the typhoid bacillus are known to cause other outbreaks, while certain varieties of intestinal parasites produce scouring and wasting sickness.

Recent veterinary research has shown that growing pigs on inadequate amounts of animal protein or on foods lacking in the vitamin B

complex are much more prone to develop the chronic type of enteritis commonly known as "necro."

Since treating sick pigs for intestinal diseases often is difficult, swine producers can save much money and trouble by developing a plan to prevent these disorders.

In most cases, if the producer follows good sanitary practices, coupled with proper rations, "necro" is not likely to be so much of a problem.

Because intestinal diseases in swine are due to so many different causes, the most important first step, when an outbreak occurs, is to find out the true cause of it. And, because the external symptoms and signs of such disease are so much alike, it is always good planning to consult a veterinarian as early as possible.

This pays off in two ways—chances of saving sick pigs are greatly increased by early, effective treatment; and, once the cause of the trouble is known, the remainder of the drove can be protected against it.

"Little Heskell"

Familiar to all residents of Hagerstown, Maryland, is "Little Heskell," the Hessian soldier weather vane atop the city hall. Little Heskell stood guard over the city from 1780 until a Civil war bullet found its way to his wrought-iron heart. Today he has a place of honor in the city hall's museum, and astride the steeple of the new city hall is a replica.

Turkey Broilers

Growing turkey broilers to supply fried turkey as a kind of glorified fried chicken is coming forward as a promising poultry specialty.

40-Pound Baby

Apparently no one has told the hippopotamus about the new easy-reducing methods. A baby "hippo" weighs 40 pounds at birth and, in one year, will tip the scale at 600 pounds.

Hindu Laws

Ancient Hindu laws required that sacrificial thread for Hindu Brahmins be made of cotton.

Beet Greens

A serving of beet greens will contribute about one-third of the vitamin A a person needs for a day.

An ad on USEFULNESS

Friend of ours was telling us about one of the most useful devices in the world.

"It works 24 hours a day for me," he said. "And never yet has let me down when I needed it most."

"Fact is, I use it to run all kinds of errands, carry messages to and from a steadily growing number of people, get help in emergencies, make friends and lots of other things. It saves me time, worry and money."

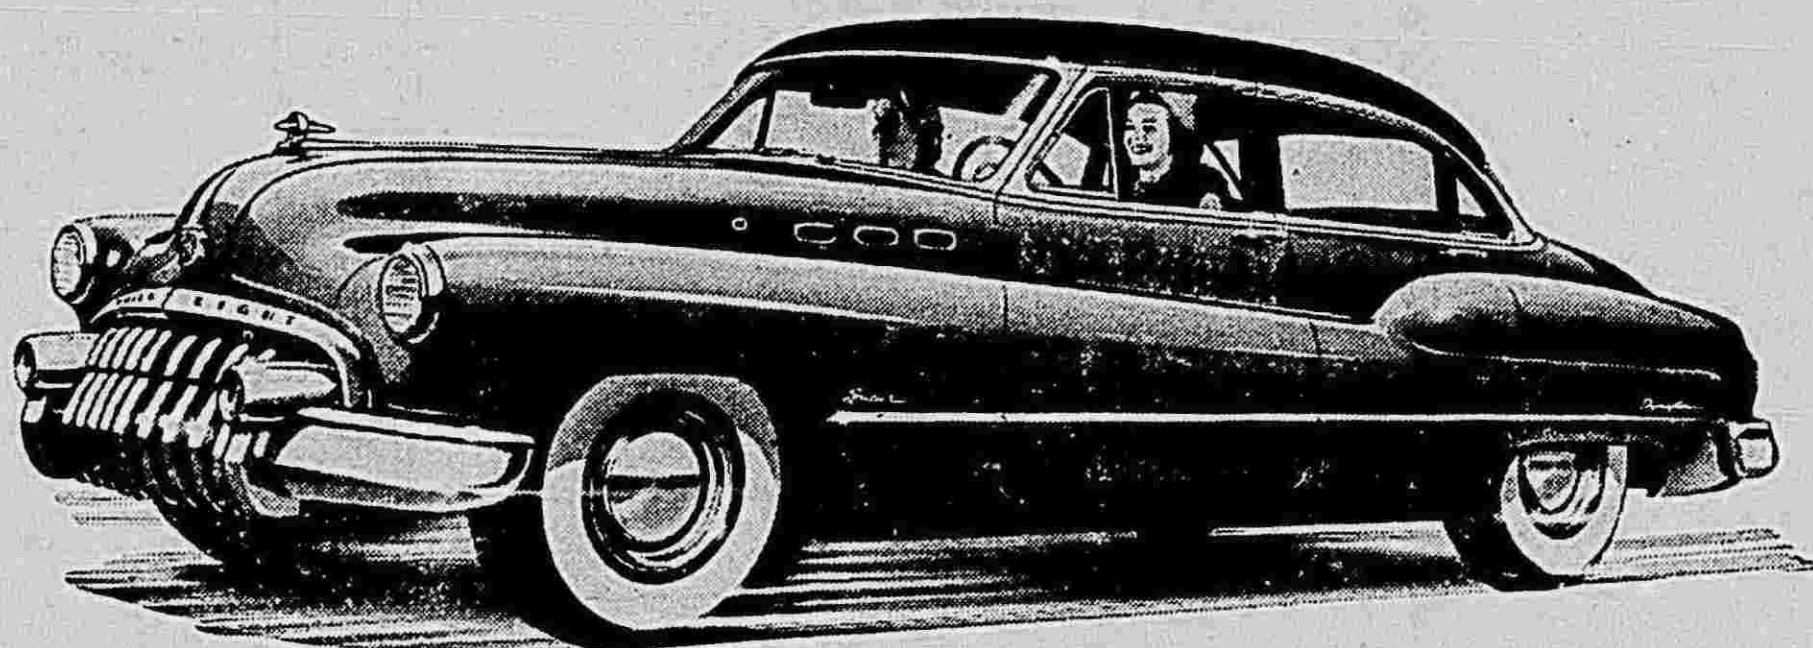

"Costs only a few nickels a day, too," he added.

"Must be a newfangled robot," we scoffed.

"No," he said. "You have one yourself—your telephone."

When you stop to think about it, few things are more useful than your telephone. Few things do so much for so little.

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

Look how you save with Dynaflow

FIRST thing you notice, of course, is the bother and effort Dynaflow Drive* saves.

Next, that Dynaflow saves you physically—after long trips you're less tense and tired, more relaxed.

But then, as the miles pile up—and this comes from cold, recorded fact after Dynaflow's two years of public operation—you spot savings you hadn't expected...

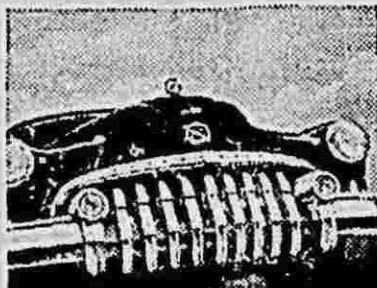

You save on tires—because power application is steady, even. On clutch expense—the usual friction clutch is gone.

You save on transmission maintenance, and the rear-axle expenses likely to go with it. And the way your engine is oil-cushioned against normal shocks and strains shows up in less engine upkeep.

* Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

FOUR-WAY FRONT

This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable (3) avoids "locking horns," (4) makes parking and garaging easier.

You may well discover another pleasant surprise, too.

We are getting a steadily mounting number of well-satisfied letters about gasoline mileage with Dynaflow cars.

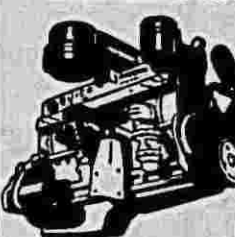

The SPECIAL has shown some records little short of phenomenal. The SUPER is delivering mileage that compares most favorably with gearshift cars. And the ROADMASTER more than holds its own with cars of its size and bulk.

In short, there's a lot more to please your budget in the 1950 Dynaflow than its new lower price. Refinements over the past two years result in savings that are sizable over the life of the car.

Knowing that, don't you want us to demonstrate the big side of Dynaflow—the utter smoothness of America's first oil-does-it-all drive?

Only Buick has Dynaflow—

and with it goes: HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

Matchless Team — DYNAFLOW and F-263

In the Buick beauty pictured here you can have both Dynaflow and Buick's very latest in power. For every 1950 SUPER has the F-263 engine, that lively high-compression stepper that's the big power thrill of the season. Dynaflow Drive is optional equipment at extra cost.

Tapir a Glutton

The largest dinosaur found in one night by a tapir is enormous, and, together with the water imbibed, may vary from one-seventh to one-fifth the total weight of the animal.

Oldest Church

Ruins of the oldest church in the Americas still stands in Panama. The church was built in 1537 and was destroyed in 1671 by the pirate, Henry Morgan, and his band of buccaneers.

Cost of Retailing

Wages and salaries usually account for at least half of the total costs of retailing.

Stainless Steel

Over 100,000 products are made entirely or partly of stainless steel, from jewelry to jet engines.

Ancient Dowry

In early times, gifts of pins were an important part of a bride's dowry.

Electric Output

Electric output in the United States increased 58 times from 1902 to 1940.

Small Apples

Some exporters prefer small apples—so the unit cost will be lower when sold at retail overseas.

Tungsten Fields

The richest tungsten field in the North American continent is located in North Carolina.

LARGE AUCTION

*It doesn't pay
to be a SNAIL*

No sir, it doesn't pay to be a snail in this day and age of television, ultrafax, jet propelled planes and atomic energy. And it doesn't pay to be a snail when it comes to buying insurance or in getting a check-up on the insurance which you have. If you wait until a fire occurs or an accident happens, not even the ultrafax can operate fast enough to get you the coverage which you need and do not have. We suggest that you pick up your telephone right now and call this agency.

A STATESMAN To Represent Us In The Congress

Republican WRITE-IN Candidate
from the 13th district

William M. McGovern

This Is Why William M. McGovern Should Go To Congress

The untimely death of Rep. Ralph Church leaves vacant his seat in Congress. The only way we voters can select his successor is to WRITE IN the name of the new candidate at the primary. It must be written below the name of the late Mr. Church. The name "Church" must not be crossed out. This will not spoil our ballots. If we don't WRITE IN, we, the voters, will have no choice.

We are fortunate to have a statesman, William M. McGovern, who can do an outstanding job of representing us. He is a home owner, family man, church member, and a staunch Republican.

He is a brilliant scholar, world traveler, author, lecturer, and professor of political science at Northwestern University. He knows personally, world and national leaders. A World War II naval commander, he was advisor to the Joint Chiefs of Staff. He holds the Legion of Merit. He was consultant to

the House Committee on Foreign Affairs. We have an opportunity to use this man's broad knowledge and insight. He advocates rigid economy, reduction of taxes and debt. He believes no group should have a stranglehold on the nation. He opposes socialistic schemes and world government. He opposes the Brannan Plan, excessively high farm price supports, socialized medicine, and federal control of education. He favors American private enterprise. He knows we cannot play Santa Claus to the world and wants a positive foreign policy.

McGovern has been endorsed by the Evanston Women's Republican Club, the Board of the New Trier Women's Republican Club, and individual endorsements are rolling in by the hour.

Here is a man with the intelligence, ability, and courage to represent us, be a leader in the Republican Party, and serve the nation.

At the PRIMARY April 11, WRITE IN . . .

☒ **William M. McGovern**

under the name of Ralph Church
This will not spoil the ballot

MILLBURN

Easter services will be held at 11 o'clock at Millburn church on Apr. 9, with an appropriate sermon by Rev. Lauren H. Messersmith. Good Friday service will be at 7:30 in the evening.

The April committee of the Ladies Aid Society will serve a cafeteria dinner at the church at noon Thursday, April 6.

The Ladies Aid will sponsor a style show in the church basement Tuesday evening, April 11, with a home talent program at 8 o'clock. The public is invited.

Miss Josephine Dodge, of Peoria, was a weekend guest at the Will Bonner home.

Mr. and Mrs. James Anderson and Mr. and Mrs. I. L. Wheeler, of Hebron, spent Sunday afternoon at the Savage home.

Mrs. L. H. Messersmith entertained a group of ladies at her home Monday afternoon in honor of her mother, Mrs. Ora Davis, who left for her home in Farnam, Nebr. Tuesday evening, after three months visit at the parsonage.

Mr. and Mrs. Oscar Neahous were Sunday dinner guests of Mr. and Mrs. Jack Neahous at Antioch.

Mr. and Mrs. Gordon Bonner spent Thursday afternoon with their aunt, Mrs. Laura Corris at Russell, who was celebrating her 91st birthday anniversary.

Rev. and Mrs. L. H. Messersmith, Mrs. Ora Davis, Miss Vivien Bonner, Mr. and Mrs. Gordon Bonner, Mr. and Mrs. Howard Bonner and sons, also Mr. and Mrs. Bert Doolittle and daughter, Barbara and Mr. and Mrs. Raymond Baethke of Antioch, were dinner guests of Mr. and Mrs. Russell Doolittle at Antioch Sunday, following the baptismal service for their son, Thomas

Lauren at the Palm Sunday service at Millburn church.

Ten new members were taken into the fellowship of Millburn church at the Palm Sunday service. Mrs. Robert Erwin, of Waukegan, was a caller at the Frank Edwards home Sunday afternoon.

Mr. and Mrs. W. C. Upton attended a dinner meeting of the Northwestern Railway Veterans Association at Hotel Schroeder in Milwaukee Saturday evening.

Mr. and Mrs. Curtis Wells and son, Warren, of Hickory, were callers at the Savage home Sunday evening.

Seagoing Atom

One pound of properly utilized atomic fuel could provide the same amount of energy as 1,500 tons of coal or 230,000 gallons of oil.

Gasoline Taxes

Motorists paid more than 1.3 billion dollars in taxes to states on gasoline and motor fuel consumed last year.

Aluminum Extraction

A process has been developed which allows aluminum to be extracted from bauxite more easily and at less expense.

Book Matches

More than a million books of matches are given away with tobacco purchases every hour in the U.S.

Make a Date with a "Rocket 8"!

"OO"

Oldsmobile's "Rocket" ride—most thrilling ride you ever tried!

Drive the new "Rocket" Engine "88"—for a Futuramic thrill you'll find in no other car! Those are big words—but your Oldsmobile dealer can back them up—with an "88" demonstration! He wants you to find out for yourself the famous thrill of "Rocket" action. He wants you to feel the swift surge of "Rocket" power... smoothed to a silken flow by Whirlaway Hydramatic*. And he knows that a demonstration is the only way he can really acquaint you with the "88's" personality... the special handling ease, the spirited eagerness that have made this Oldsmobile the talk of motorists everywhere. So make a date with a "Rocket 8." Once you do—you won't be happy until you have your own Futuramic "88"—especially at today's lower prices!

*Whirlaway Hydramatic Drive, at reduced price, now optional on all Oldsmobile models.

**Any way, and every way, you measure it
—FIRST...and Finest...at Lowest Cost!**

Measure size, and you'll find Chevrolet's the longest, heaviest car in its field—*bar none*. Measure styling and beauty, and you'll find it's the only car in its field with the world-famous Body by Fisher. Measure driving ease, and you'll find that only Chevrolet offers you your choice of the finest no-shift driving or the finest standard driving—at lowest cost. Measure performance, riding comfort and safety, and you'll find it's the only low-priced car combining the extra-efficient Valve-in-Head Engine, the extra-smooth Knee-Action Gliding Ride, and extra-dependable Certi-Safe Hydraulic Brakes!

And remember—Chevrolet alone provides all these and many other fine-car advantages at the lowest prices and with such low operating and upkeep costs.

Come in! See Chevrolet for 1950. And we know you'll agree that, any way and every way you measure it, it's first and finest at lowest cost!

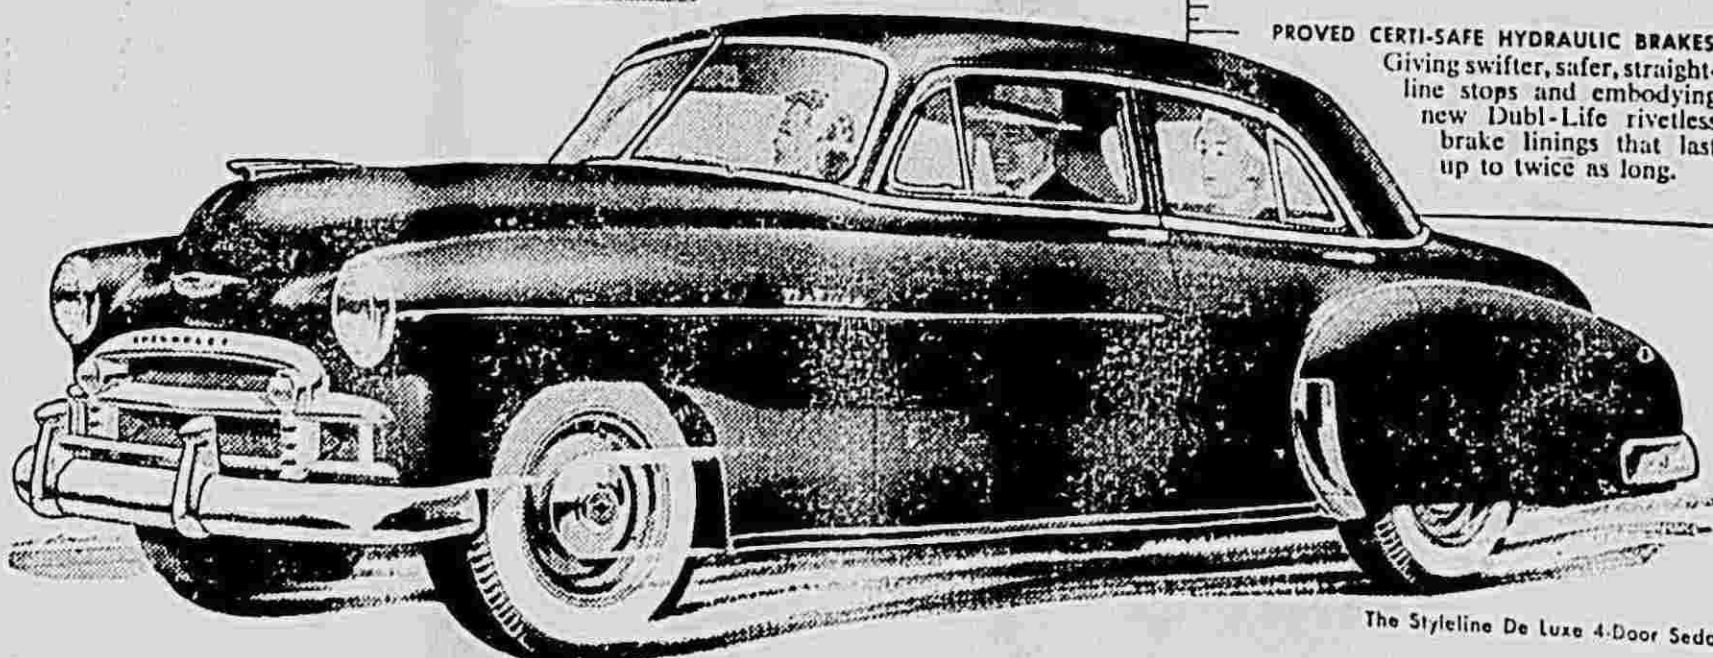

Introducing Chevrolet's Exclusive New

POWERGLIDE

AUTOMATIC TRANSMISSION*

*Combination of Powerglide Transmission and 105-h.p. engine optional on De Luxe models at extra cost.

**New Lower Prices make Chevrolet more than ever
America's Best Seller . . . America's Best Buy**

The Styline De Luxe 4-Door Sedan

R & J Chevrolet Sales, Inc. Antioch, Illinois

NEW STYLE-STAR BODIES BY FISHER
(in sparkling new color harmonies) Now more than ever "the most beautiful bodies built"—inside and out—exclusive to Chevrolet and higher priced cars.

NEW TWO-TONE FISHER INTERIORS
(extra-roomy . . . extra-luxurious) With new upholstery—new colors—new appointments—placing Chevrolet far ahead in both beauty and comfort.

CENTER-POINT STEERING
Assuring a remarkable degree of steering ease, under all driving conditions—another vital feature found only in Chevrolet and more expensive cars.

CURVED WINDSHIELD
with PANORAMIC VISIBILITY
(in Fisher Unisteel Bodies) Supplying extra vision all around the car—extra body strength and durability—extra safety-protection for you and your family.

BIGGEST OF ALL LOW-PRICED CARS
Biggest in every way, for Chevrolet is the longest, heaviest car in its field, and has the widest tread, all of which contributes to maximum stability and safety.

EXTRA-ECONOMICAL TO OWN—OPERATE AND MAINTAIN—
and traditionally bringing you more value when you trade; for Chevrolet cars are most wanted—new or used.

PROVED CERTI-SAFE HYDRAULIC BRAKES
Giving swifter, safer, straight-line stops and embodying new Dual-Life rivetless brake linings that last up to twice as long.

Musical Notes to Test Hearing of US Sailors

CHICAGO.—The navy is experimenting with a musical note test which it hopes will prove to be a quick, easy method to discover men with extra-acute hearing.

Such men are needed to operate sound-detecting and ranging gear used in antisubmarine warfare.

The present time-consuming method of testing hearing ability in the navy is the measurement of the distance a person can hear a whispered number of phrases.

This test is generally satisfactory but not detailed or selective enough to meet special needs.

The new method is more accurate, standardized, and can test as many as 300 men at one time.

It consists of a pulsating pure sound which gradually decreases in intensity. Single, double, or triple pulsations alternate as the intensity decreases.

Reverse Image Mirror

An inventor in Hamburg, Germany, claims he has developed a mirror with a reverse image, permitting the viewer to see himself as others see him. Franz Mueller, the inventor, is a bit nervous about showing the device or allowing it to be photographed, however, he said, it will be placed on exhibition when patented. In this mirror left is really left and right is right as against the "backward" reflection of the conventional mirror.

ANNOUNCING . . .

To the voters of the 13th Congressional District

W. J. MURPHY**QUALIFICATIONS**

Attended Antioch High School—John Marshall Law School—has successfully operated his own Real Estate and Insurance Business—Has a long record of active service in community and county civic affairs—Has served as treasurer and director of Chamber of Commerce—Director, secretary and president of Lions Club—Served as director and fire inspector of Round Lake Fire Department—Served four terms as President of School District No. 43, handling during his administration the construction of one of the most modern and efficient elementary schools in this state—Has served as a director and executive vice-president of the First State Bank of Round Lake—Served as secretary-treasurer of the Waukegan-Lake County Real Estate Board and is now president of County Real Estate Board, business located at Round Lake, Illinois. Makes his residence with his wife and three sons at Antioch, Ill.

AFFILIATION: Round Lake Area Chamber of Commerce—Antioch Legion Post No. 748—Antioch Loyal Order of Moose Lodge—Waukegan Elks Lodge No. 702—Waukegan-Lake County Real Estate Board—Round Lake Fire Dept.—Skycrest Country Club.

Republican Candidate**REASONS WHY YOU SHOULD "WRITE-IN" W. J. MURPHY**

(1) The voters of the District should select their own representative (rather than having a man selected by a small group of professional politicians, which would be the case if no one qualifies for the vacancy created by the death of Ralph Church).

(2) W. J. Murphy is closely associated and familiar with the wants and needs of the residents of the 13th District.

(3) W. J. Murphy is an outspoken opponent of all types of "isms"—He is especially concerned and a fighter against—Public Housing—Socialized Medicine—Rent Control—Subsidies—Foreign Giveaway Programs—and the increasing regimentations that the present administration is fostering in their plans for a welfare state.

(4) W. J. Murphy is a learned businessman—Honest—Dependable and a fearless fighter.

(5) W. J. Murphy states that "we are not just facing another election,—we must consider it a Patriotic Crusade and every Republican must consider himself a savior of Democracy." He states that "if the Republican Party does not elect a Republican President in 1952, they will never have another chance". He states "It's later than you think! Think together, work together, vote together, not only to save the Republican Party—but to save private enterprise—to save our freedom of speech and action—to save our country!"

As THE "write-in" candidate for Congressman to replace the Honored Deceased Ralph E. Church at the Republican Primary

Election: Tuesday, April 11, 1950**NOTE: VOTERS, LISTEN!**

Elect your own candidate for Representative to Congress—Do Not Leave It To A Few Select Politicians To Do It For You.

I PLEDGE

(1) To be a "Shot in the Arm to the Republican Party".

(2) Give all voters of the District equal representation.

(3) I pledge personal attention to your wants.

(4) I pledge an untiring fight against all Socialist Trends and Regimentation.

Write in the name "W. J. Murphy" and give the Republican Party new life—Then—we'll win too in '52

Give me your Help! I will give you mine

Give yourselves—Intelligent—Fearless Representation by tearing off the example at the right and taking it into the booth with you. Write in "W. J. Murphy."

Tear it off—Take it with you—Copy it.

For Representative in Congress
Thirteenth District
(Vote For One)

RALPH E. CHURCH**W. J. Murphy**

SALEM

Mr. and Mrs. Alex Conville, of Salem Oaks Subdivision, have returned to their home after spending the winter at Orlando, Florida.

Mrs. E. H. Hartnell and Mrs. Frank Wheeler and son spent Thursday afternoon in Kenosha.

Mr. and Mrs. Alfred Schmidt were dinner guests Saturday evening of Dr. and Mrs. DeWitt, of Silver Lake.

Mrs. Bessie Elkerton, of Antioch visited with her sister, Mrs. Charlotte Bloss Saturday.

Mrs. Elmer Fleming and son, Dean, of Burlington, and Mrs. Herbert Hein and children, of Kenosha, spent Wednesday with their mother, Mrs. David Elfers.

Mrs. Albert Jarnigo is a patient at

hospital in Waukegan where she underwent an operation.

Mrs. Harry Krahn, Mrs. Charlotte Bloss and Miss Olive Hope attended a party at the home of Mr. and Mrs. Milword Bloss Friday evening. The occasion being their son, Jerry's birthday anniversary.

Mrs. Clarence King spent Wednesday in Milwaukee.

Mr. and Mrs. Byron Patrick spent Sunday evening in Kenosha with their son, Ray Patrick, and family.

Load of Logs

Largest load of logs ever hauled on a sleigh by horses was 50,580 feet of logs—approximately nine carloads, weighing nearly 250 tons. It originated at Pine Island, Minn., in 1909.

Jet Pump

The usual jet pump is not recommended for wells where the water level is more than 80 feet below the pump. The chief advantage of the jet type pump is that it does not have to be located over the well.
